

2nd Ave Safety Project – Pioneer Square Yesler to Washington

Improving traffic signals and adding a protected bike lane

To improve the safety, vibrancy and connections on this block between Yesler and Washington streets, the Seattle Department of Transportation is planning to convert the bike lane to a two-way protected bike lane and make traffic signal improvements this spring. SDOT will look at extending the protected bike lane to Jackson St in 2017. Stay tuned for more details.

This protected bike lane extension is part of SDOT's Center City Bike Network project and Vision Zero plan to end traffic deaths and serious injuries by 2030.
