## 6TH AVE PAVING PROJECT

### Curb ramp upgrades, prep work downtown last through winter

#### PROJECT OVERVIEW

We're planning to pave 6th Ave between Stewart St and Yesler Way in downtown Seattle. Each year, we pave arterial streets in poor condition to make them safer, smoother, and to extend their useful life. Keeping our transportation system in a state of good repair helps lower the cost of future maintenance.

Prep work has begun. While grinding and paving will not begin until next year, we have started to upgrade curb ramps to comply with Americans with Disabilities Act standards and install a new crossing beacon at Marion St.

#### CURB RAMP UPGRADES

Our curb ramp work along the corridor is divided into 2 segments to minimize disruption in the retail core during the holiday shopping season.

- **Seneca St to Yesler Way:** This fall and winter, we'll make curb ramp upgrades and sidewalk repairs, and install a new crossing beacon at Marion St
- **Stewart St to University St:** Starting in early 2018, we'll make curb ramp upgrades and sidewalk repairs

#### NOTIFICATION

#### WHAT TO EXPECT DURING CONSTRUCTION

-  Typical work hours will be 7 AM – 5 PM, Monday through Friday
-  Noise, dust, vibration, and odors near construction zones
-  Bus stops will remain open and accessible
-  Reroutes, lane closures, and on-street parking restrictions near construction zones
-  Access to businesses, hotels, and residences on 6th Ave will remain open. Please continue to visit 6th Ave during construction.
