

FACT SHEET

# 25TH AVENUE NE PAVING PROJECT

WINTER 2018

## PROJECT DESCRIPTION

This fall, the Seattle Department of Transportation (SDOT) plans to resurface about 1.25 miles of 25th Ave NE between Montlake Blvd and NE 65th St. Resurfacing the road will make it more comfortable to drive on and extend its useful life.

## PROJECT ELEMENTS

This maintenance project will:

- Repave and restripe 25th Ave NE between Montlake Blvd NE and NE 65th St; restriping will maintain current street operations
- Install and upgrade curb ramps in accordance with the Americans with Disabilities Act (ADA)
- Relocate pedestrian push buttons to accommodate ADA curb ramps
- Make minor drainage system upgrades
- Make bus stop improvements, including a new shelter near NE Blakeley St

## BENEFITS

We know how important it is to maintain our streets, and our Paving Program helps take care of the basics by rehabilitating arterial streets each year. Arterial streets are primary routes for moving people and goods through the city. They also connect business districts to one another and the regional transportation network.

Keeping our transportation system in a state of good repair helps lower the cost of future maintenance and extends the useful life of our roads.

## SCHEDULE

Early 2018- Finalize project design

Summer 2018- Pre-construction coordination with the community and businesses

Fall 2018- Begin phase 1 of construction

- Base repairs, curb ramp upgrades, storm drain repairs, sidewalk upgrades

Spring 2019- Begin phase 2 of construction

- Grinding, paving, and final striping

Summer 2019- Major construction completed

## WHAT YOU NEED TO KNOW

**Our goal is to make sure the community is aware of the project and what they should expect once construction begins. We try to limit construction impacts wherever feasible but recognize that construction is not always easy and can be very disruptive to normal day-to-day activities.**

**This spring, we will begin door-to-door outreach along 25th Ave NE to start conversations with residents and businesses about their access needs during street paving and share contact information with them.**

**In the meantime, you can learn more about the project on the project webpage or by contacting the project team using the information below.**

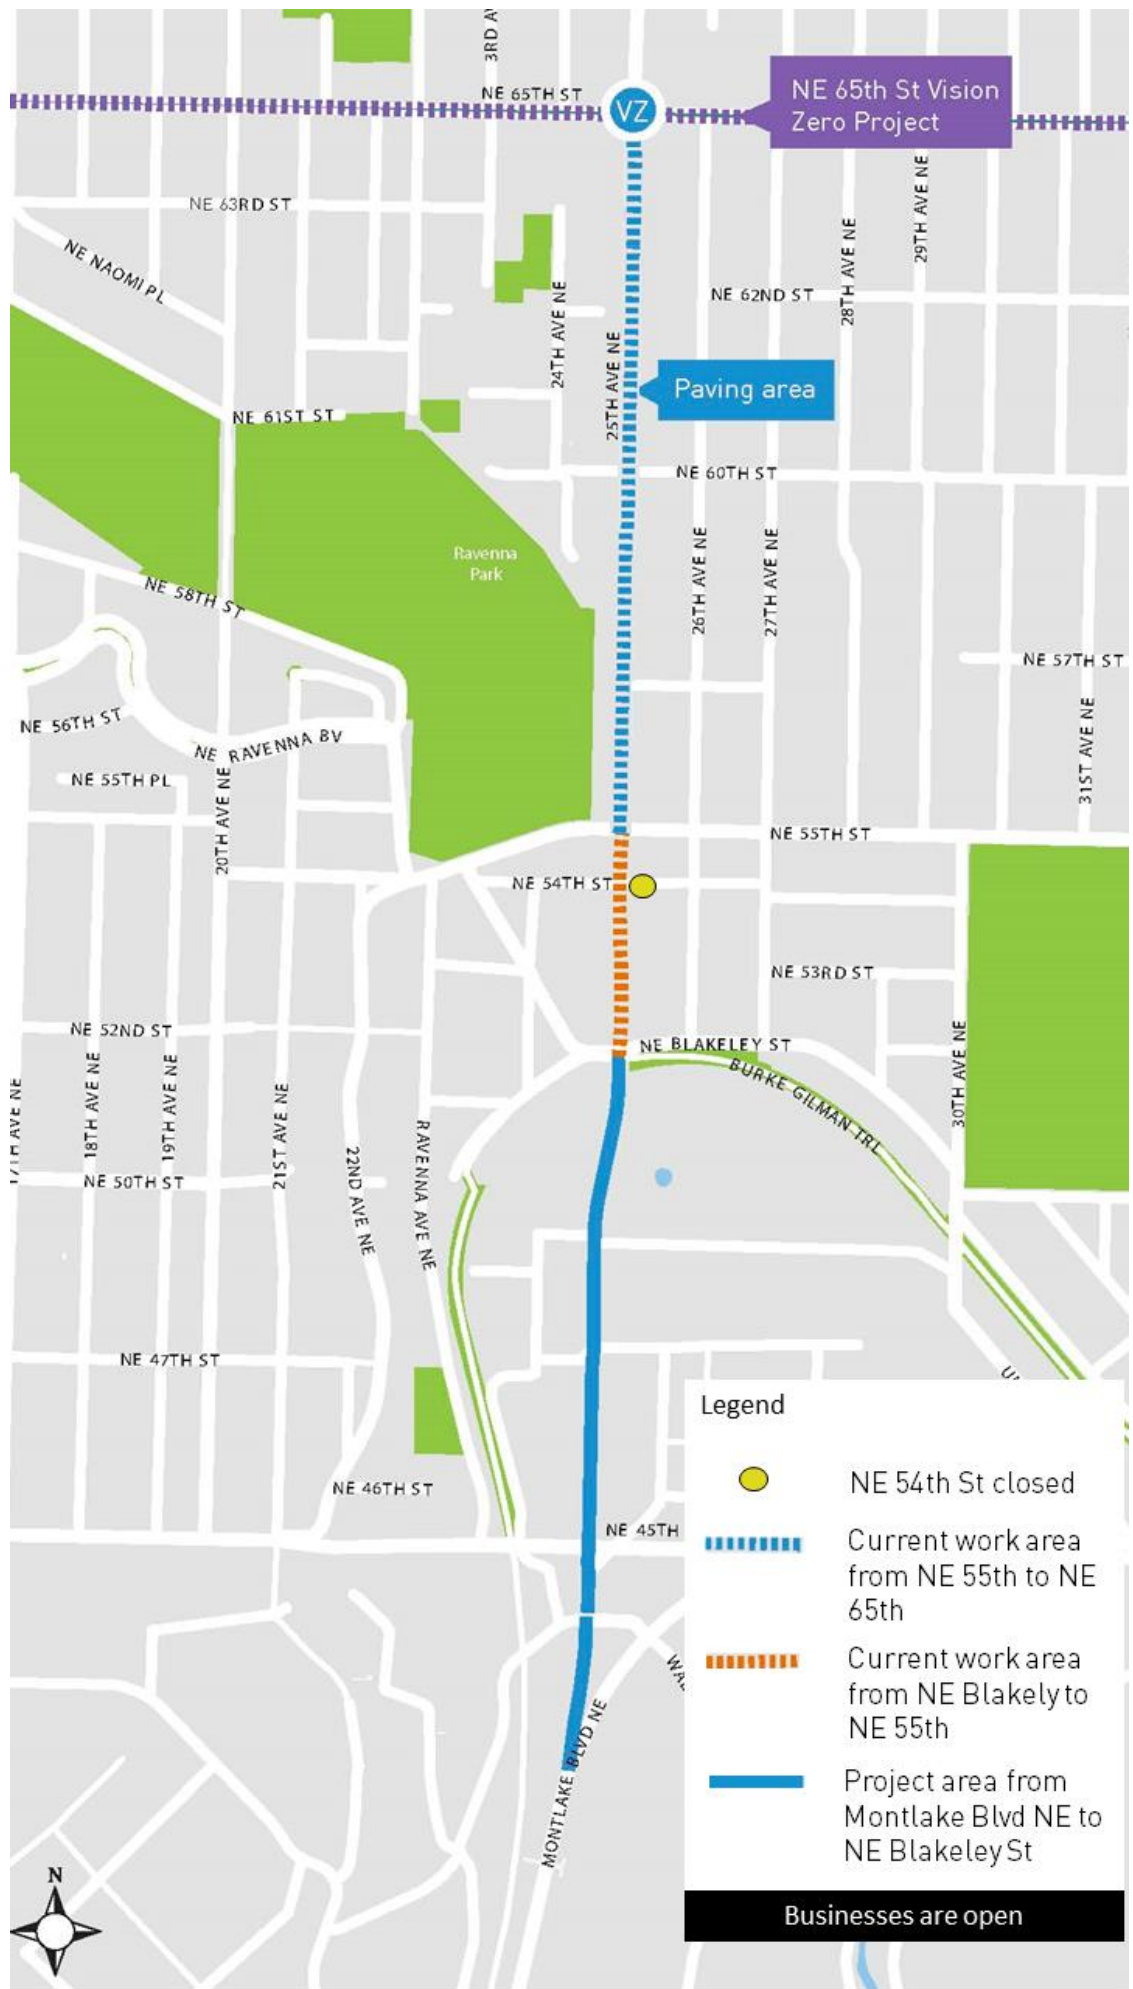

This project is funded by the 9-year Levy to Move Seattle, approved by voters in 2015. Learn more about the levy at [www.seattle.gov/LevytoMoveSeattle](http://www.seattle.gov/LevytoMoveSeattle).
