

DELRIDGE WAY SW PEDESTRIAN BRIDGE PROJECT

FACT SHEET

August 2021

PROJECT DESCRIPTION

As part of the Delridge Way SW – RapidRide H Line project, we will be installing a new signalized crossing on Delridge Way SW at the intersection with SW Oregon St. With this new crossing, we are currently evaluating removing or repairing the pedestrian bridge connecting the Youngstown Cultural Center and the Delridge Playfield. Before planning any potential changes to the bridge, we want to hear from you and create a plan for this area that will best fit the needs of you and your neighbors.

Benefits for the repair option include:

- Updating the bridge to meet new seismic standards for pedestrian bridges in order to be more resistant to ground activity such as earthquakes.
- Maintaining an alternative connection for neighbors wanting to access the Delridge Playfield and Youngstown Cultural Center

Benefits for the remove option include:

- Removal of the need to perform costly regular maintenance to the pedestrian bridge
- Supports SDOT’s pedestrian-focused policies that prioritize the safety of people over the speed of vehicles
- Improved sightlines for people driving southbound on Delridge Way SW as they approach the signalized intersection at SW Oregon St

SCHEDULE

We will make a decision based on data collection and the community’s feedback later in 2021. Construction for repair or removal would begin as early as spring 2022.

SHARE YOUR FEEDBACK

We want to know how you currently use the bridge and if/how you will use it after the new crossing has been installed.

We are collecting feedback until August 30. You can take our survey at tinyurl.com/DelridgePedBridge.
