

# **Landscape Management Planning in a Sustainable Landscape**

**Barbara DeCaro**  
**Green Gardening**  
**October 22, 2013**

# Outcomes for this workshop

**Experience teamwork** in developing a landscape management plan(LMP)

**Develop a sustainability approach** for an existing landscape

**Create a site inventory, assessment, and recommendations** for future design and management of a landscape site

## **GROUP DELIVERABLES**

**Landscape Management Approach** – An overview of priorities and special considerations for the landscape.

**Landscape Management Areas** – A summary of important design or maintenance issues for the landscape, organized by type of landscape element.

**Special Landscape Areas** - street trees, green roofs, swales, permeable paving, specimen plants

**Seattle Green Factor**

# Assumptions

This is an existing landscape of a certain age

This landscape was professionally designed

This landscape will be professionally maintained

**Assignment 1** – Define a sustainability approach for planning, improving, and maintaining an existing landscape

**Materials:** name tags, landscape site plan, site scenario

### Instructions

1. Team formation, roles and responsibilities
2. Develop and document the sustainable approach
3. Learn the landscape

# Assignment 2 – Produce a site inventory

Materials: site inventory worksheet, landscape site plan

## Instructions

1. Inventory the site
2. Note special landscape features, problem areas, specimens, and other important information on the inventory worksheet and the site plan

# Assignment 3 – Assess the landscape site

**Materials:** site inventory worksheet, landscape site plan, sustainability criteria

## Instructions

1. Review and assess site sustainability
2. Develop specific design and maintenance strategies to develop, enhance or improve sustainability
3. Formulate recommendations

# Assignment 4 – Group reports

- ❖ Articulate the site's sustainability approach
- ❖ Articulate specific design and maintenance strategies to develop, enhance or improve sustainability
- ❖ Share short and long term recommendations

# Discussion and questions
