A Step by Step guide:
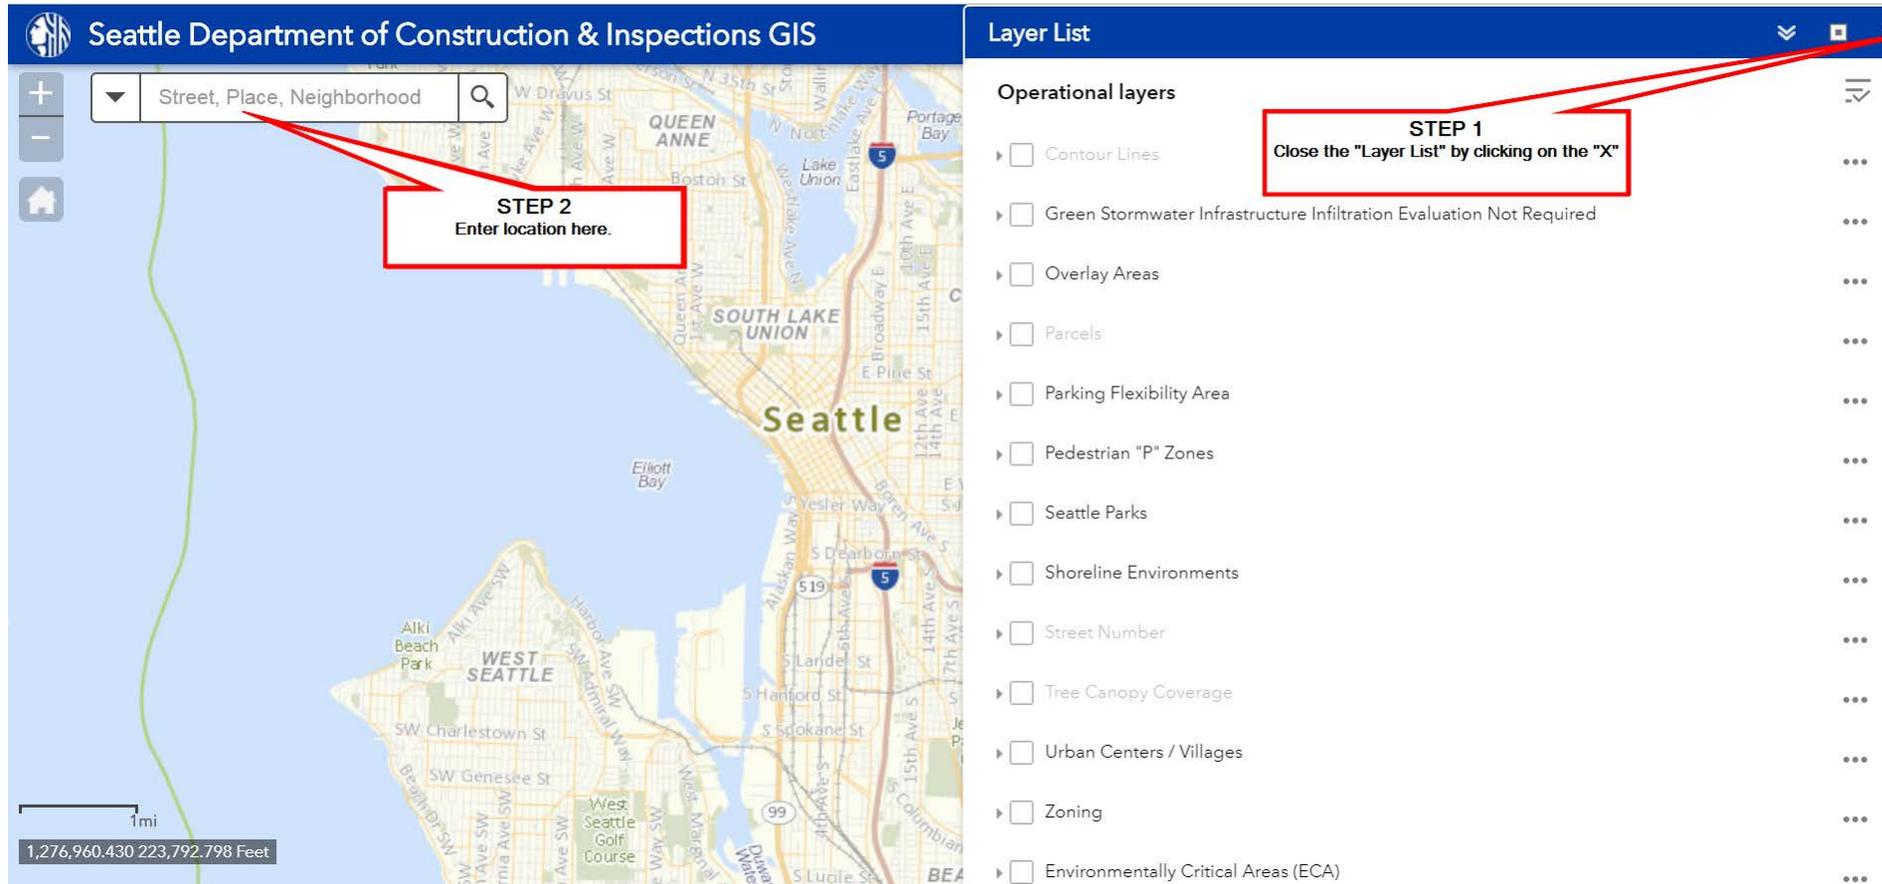

Using the SDCI interactive map to determine a location within Seattle city limits.

To determine if a location is within Seattle's city limits, employers can use the interactive mapping tool found **here**. The following five steps outline how to use the interactive map.

STEPS 1 & 2:

Close the "Layer List" on the right-side of the page by clicking the "X" and enter location in the address bar on the top left-side of the page.
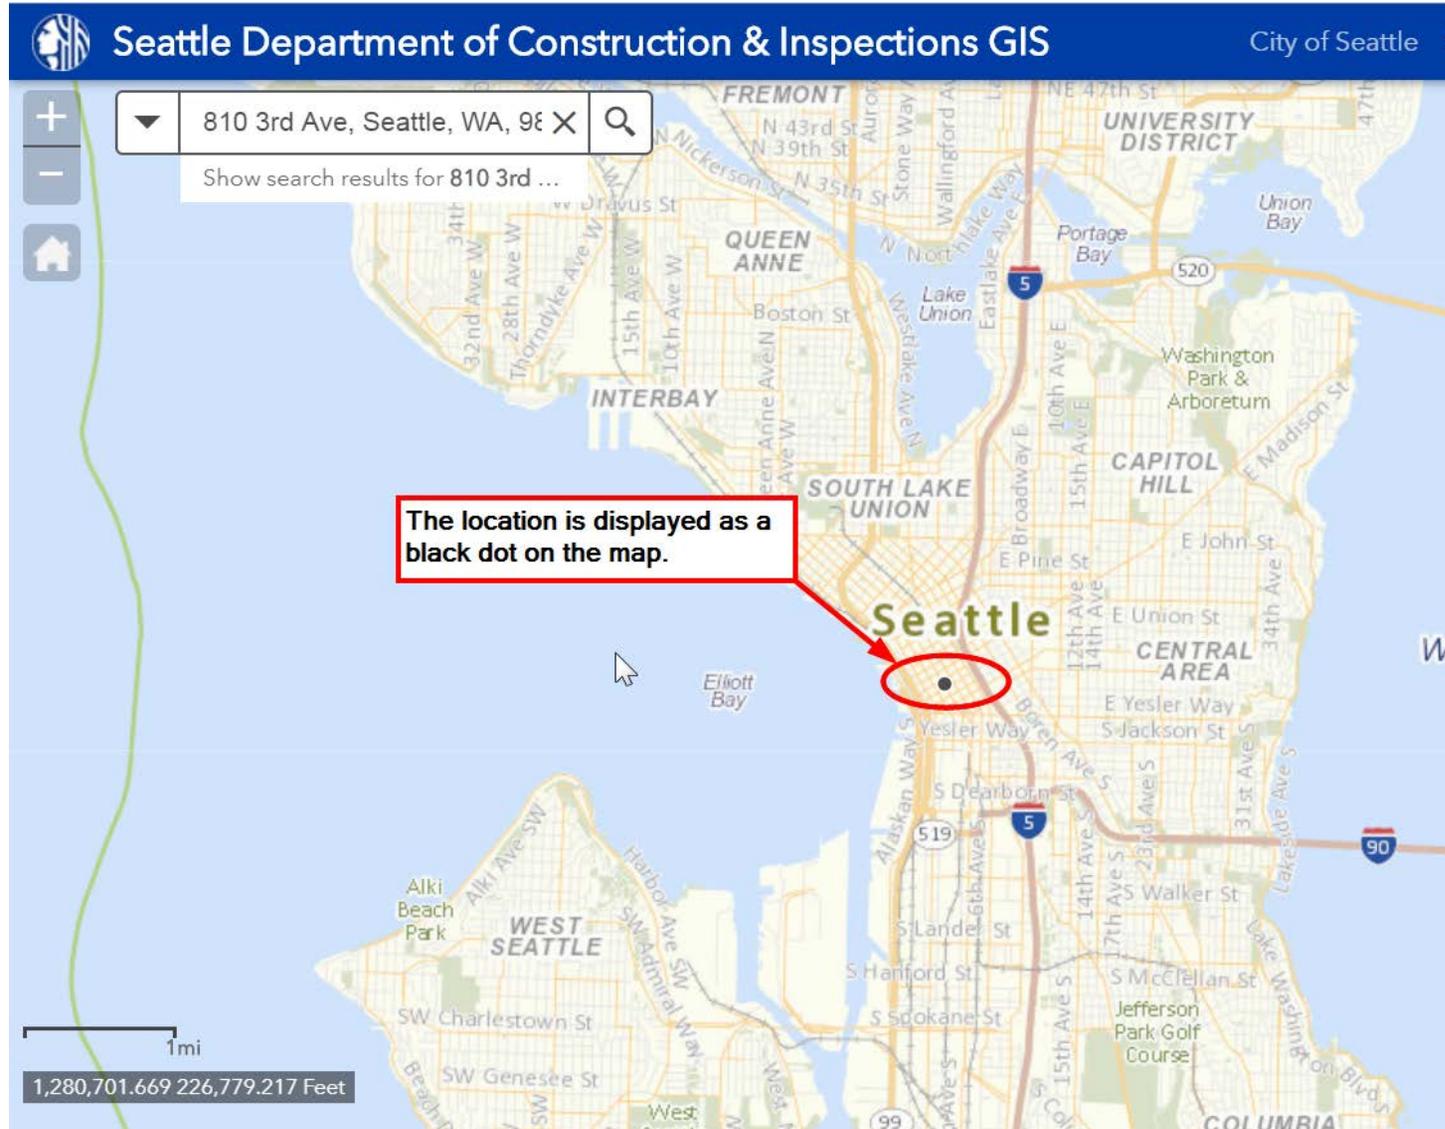

A Step by Step guide:

Using the SDCI interactive map to determine a location within Seattle city limits.

STEP 2 continued...

The location is displayed on the map (based on the address you inputted) as a black dot.

A Step by Step guide:

Using the SDCI interactive map to determine a location within Seattle city limits.

STEP 3:

Use the zoom feature to zoom-out of the map to view the north and south boundaries of the city (the purple dotted-lines).

A Step by Step guide:

Using the SDCI interactive map to determine a location within Seattle city limits.

STEP 5:

Zoom-in to get a closer look at the city's boundary line, to determine if your location is within Seattle's city limits. In this example the location is outside of the city's southern boundary, and therefore not in the city limits.
