*2017 State Legislative Bulletin*

January 16, 2017

Number 1

*The City of Seattle is committed to being a safe, vibrant, interconnected, and affordable city.*

**Week Overview**

The 2017 Legislative Session began on Monday, January 9<sup>th</sup>. This year's session is considered a "long session" with a scheduled end date of April 23<sup>rd</sup>. It is anticipated that the Legislature will require at least one 30-day special session to finish negotiations on the 2017-2019 operating and capital budgets.

On Wednesday, Governor Jay Inslee gave his annual State of the State address to a joint session of the Legislature. The Governor highlighted the importance of continuing to work on the critically important issues of mental health, homelessness, opioid addiction, early learning and higher education. It was stressed that none of these issues are as important as fully funding K-12 education. In his closing remarks, Governor Inslee reiterated his commitment to equal rights, human dignity, and protecting health care access for those covered by the Affordable Care Act and Medicaid.

Mayor Murray was in attendance for the Governor's speech, and spent the afternoon in meetings with leaders of both chambers and parties to discuss the City's legislative agenda, particularly focusing on the homelessness and the affordable housing crisis.

**Priority Areas**

**2017-2019 Operating and Capital Budgets**

Legislators held work sessions and public hearings on Governor Inslee's 2017-2019 biennial operating and capital budget proposals, which were released last month. The Governor's budget focuses on fully funding K-12 schools, overhauling the mental health system, preventing and reducing homelessness, continuing to make progress on clean energy and environment, and preserving the safety net for vital services.

Highlights of the budget proposal include: a tax on carbon emissions, a capital gains tax, and reorganizing the Business and Operating (B&O) tax to tax industries such as law and financial services and reduce B&O taxes, and tightening tax loopholes. Through these measures, the Governor aims to create a competitive employment environment for educators by increasing compensation to recruit and retain quality educators. Additionally, Governor Inslee called for the betterment of post-secondary school options, and career paths after high school for those seeking something other than the traditional 4-year university career path. The Governor also opposed making cuts to health care and women's health services.

The Governor's capital budget funds \$4.1 billion in new projects with a little over \$1 billion dedicated to K-12.
