

# CITY OF SEATTLE

## 2021 State Legislative Session Final Report - Sine Die

May 17, 2021

### **Mayor**

Jenny A. Durkan

### **City Council**

Lisa Herbold, District 1

Tammy Morales, District 2

Kshama Sawant, District 3

Alex Pedersen, District 4

Debora Juarez, District 5

Dan Strauss, District 6

Andrew Lewis, District 7

Teresa Mosqueda, Position 8

Council President Lorena González, Position 9

### **State Team, Office of Intergovernmental Relations (OIR)**

Lily Wilson-Codega, Director

Robin Koskey, Deputy Director

Quinn Majeski, State Relations Director

Hannah Smith, Government Affairs Program Director

Cody Arledge, Contract Lobbyist

Wyatt Arledge, Contract Lobbyist

Amanda Jahshan, Contract Lobbyist

Rebecca Johnson, Contract Lobbyist

Nancy Sapiro, Contract Lobbyist

Jennifer Ziegler, Contract Lobbyist

Jay Manning, Consultant

---

## **A special thanks to the City of Seattle State Legislative Delegation, City officials, and City staff**

The Office of Intergovernmental Relations (OIR) thanks the Seattle legislative delegation for the countless hours they spent representing the interests of Seattle residents during this unprecedented virtual legislative session. We would also like to acknowledge all the work of the Mayor, Council, and their staff, and thank them for their direct engagement and support of our City's agenda and priorities this year.

Finally, we would like to extend a special thanks to all the department staff who assisted with the bill review process. Over 1,100 bills were introduced this legislative session, and we would not have been able to respond to the many far-ranging impacts to the City without all their hard work and expertise.

---

## **2021 Session Overview**

The Washington State Legislature convened for the 105-day legislative session on Monday, January 11. Due to the COVID-19 pandemic, this was also the first ever virtual legislative session in Washington State history. All legislative business – from committee hearings to floor debate to stakeholder meetings – was conducted over video conferencing services. Despite the unique challenges associated with conducting legislative business virtually, the legislature took action on a number of high-profile issues.

In the lead up to the legislative session, leadership from the House and Senate identified four priority issues for the legislature: COVID-19 response, budget and revenue, police reform, and climate justice. While many important bills and budget provisos did not make it through the legislative process, significant action was taken on each of these four issues. The availability of federal resources through the American Rescue Plan Act (ARPA) also enable significant investment in housing, preventing homelessness, human services, childcare, and economic assistance.

This report provides an overview of significant budgetary and policy decisions made by the legislature during the 2021 legislative session.

---

## **Operating and Capital Budget**

*Additional budget details in attached operating and capital budget summaries.*

**Capital Gains Tax [SB 5096](#)** (Robinson) – Establishes a 7.0 percent tax on capital gains over \$250,000 per year beginning January 1, 2022. Retirement savings, real estate, and the sale of qualifying small, family-owned businesses are exempt from the tax. Up to \$100,000 in charitable donations may also be deducted from any taxes owed for a given year. The first \$500 million in annual revenue is directed to the Education Legacy Trust Fund for the provision of early learning and childcare programs, with any excess proceeds deposited in the Common Schools Construction Account.

**Housing and Homelessness** – The Capital and Operating budgets invest over \$1 billion to address housing needs, including \$350 million in capital to create and preserve affordable homes:

Capital Budget Highlights (full details page 1 of Capital Budget Summary):

- **\$175 million** for the Housing Trust Fund

- **\$120 million** for rapid acquisition of affordable housing and shelter spaces
- **\$42 million** for utility connection fee reduction grants
- **\$10 million** for Weatherization Plus Health

Operating Budget Highlights (full details on pages 1-2 of attached Operating Budget Summary):

- **\$658 million** for rent assistance
- **\$187 million** for foreclosure prevention
- **\$26.5 increase** to Housing and Essential Needs Program
- **\$58.4 million** for Operations, Maintenance and Services for Permanent Supportive Housing (from HB 1277)
- **\$221.92 million** Home Security fund unsheltered homelessness, project-based vouchers, emergency housing, rapid rehousing, eviction prevention/rental assistance (from HB 1277)
- **\$19.7 million** for long-term vouchers for people with behavioral health or substance use disorders

### **Child Care & Early Learning**

*Full details in attached Child Care and Early Learning Budget Document*

The pandemic helped to shed light on the childcare crisis that many parents and families are experiencing. The legislature responded by passing the Fair Starts for Kids Act and providing over \$757 million in a variety of childcare programs. Highlights include:

- **\$400 million** for stabilization including payroll reimbursements and operating expenses
- **\$146.6 million** for Working Connections Child Care Program (WCCC) and Early Childhood Education Assistance Program (ECEAP) provider rate increases
- **\$102 million** for WCCC and ECEAP eligibility expansion
- **\$24.9 million** to expand ECEAP slots by 1250 over two years
- **\$84.5 million** for Fair Starts for Kids and other childcare programs

### **Health Care**

*Full details on page 3 of Operating Budget Summary*

- **\$149.5 million** for foundational public health services
- **\$35 million** in grants for rural health centers, federally qualified health centers, public hospital districts, free clinics to provide behavioral health, dental, and health care services for uninsured and underinsured patients, regardless of immigration status.
- **\$50 million** for Cascade Care ([SB 5377](#)) for premium assistance for individuals up to 250 percent of the federal poverty level.

### **Other Significant Investments with Federal Funds**

- **\$340 million** for Immigrant Relief Fund
- **\$124 million** for food assistance programs
- **\$1.1 billion** for the COVID response and vaccine deployment
- **\$500 million** for Unemployment Insurance benefit relief
- **\$188 million** for small business assistance

## Transportation Budget

The legislature did not reach an agreement on a transportation revenue package this session. The overall amount of funding, sources of revenue, and split between highways and multimodal funding were the primary points of contention. Because compliance for two major pieces of environmental legislation passed this year cannot go into effect until a transportation revenue package is adopted (see the Environmental section below), there is an extra incentive to address transportation funding in the near future: either next session, or during a potential special session if the need arises due to the passage of a federal infrastructure bill.

The 2021-2023 current law (i.e., no new revenue) transportation budget that passed includes very little by way of new investments. The legislature was forced to tap \$1 billion in ARPA funding just to meet its existing commitments and obligations: \$600 million to address the shortfall in transportation revenues, primarily gas tax and tolling, and \$400 million to meet the State Supreme Court's ruling on fish passage barrier removals.

Investments relevant to the City of Seattle in the current law transportation budget include:

- **\$5 million** additional funding for the Pedestrian and Bicycle Safety Grant Program
- **\$5 million** additional funding for the Safe Routes to Schools Grant Program
- **\$5 million** for green transportation capital grants to help transit agencies fund projects needed to reduce carbon emissions and switch to electric vehicles or other zero-emission options
- **\$4 million** for the Pre-Apprenticeship & Supportive Services (PASS) grant program to recruit and retain members from underrepresented communities in construction trades.

---

## Policy Bill Highlights

### Education

**Fair Starts for Kids** [SB 5237](#) (Wilson) – Creates the Fair Starts for Kids Account. Expands eligibility and decreases co-payments in the Working Connections Child Care Program (WCCC) and expands eligibility in the Early Childhood Education Assistance Program (ECEAP). Provides increased rates, training, grants, supports, and services for childcare and early learning providers and increases prenatal-to-three supports for providers and families. Waives the WCCC work requirements for parents who are students. Increases WCCC subsidy base rate to the 85th percentile of SMI and expands income eligibility limitations to the 60th percent of state median income. ECEAP rates are increased 10 percent. The bill includes other investments intended to stabilize the childcare market and enhance access to quality childcare.

### Environment

**Climate Commitment Act** [SB 5126](#) (Carlyle) – The Department of Ecology is directed to establish emissions reduction obligations for covered entities, defined as those that generate more than 25,000 metric tons of carbon annually. The first compliance period for covered entities begins January 1, 2023 and runs through December 31, 2026. There is a detailed schedule of subsequent four-year compliance periods that follow, along with parallel review and adjustment by the Department of Ecology. Notably,

Ecology must conduct an environmental justice review every two years to ensure the program achieves emissions reductions targets in overburdened communities highly impacted by air pollution and adjust regulations and requirements if the program is not meeting those goals.

The Department of Ecology must establish a system for managing and auctioning allowances at least four times annually. Covered entities may not purchase more than 10% of allowances at a single auction. General market participants may not purchase more than 4% of allowances per auction or 10% per calendar year. Ecology must adopt additional rules to prohibit collusion, minimize potential for market manipulation, establish an emissions containment reserve to ensure sufficient reduction incentivization, and set auction floor and ceiling prices to smooth volatility.

Ecology must adopt linkage agreements with other jurisdictions' cap and invest programs where feasible to broaden GHG emissions reduction opportunities to reduce costs of compliance, enable joint allowance markets and unified tracking for compliance instruments, enhance market security, reduce program administrative costs, and provide consistent requirements across jurisdictions. Ecology must conduct an environmental justice assessment prior to entering into a linkage agreement to ensure sure action would benefit vulnerable populations.

Offset credits are established as a permitted method for covered entities to meet their obligation requirements. To generate offset credits, a project must demonstrate GHG reductions or removals that are real, permanent, quantifiable, verifiable, and enforceable. At least 50% of offset credits must be from projects that provide direct environmental benefits in Washington State during the first compliance period, and 75% during the second compliance period. A covered entity may meet no more than 5% of its reduction obligation through offset credits during the first compliance period, and 4% during the second compliance period. On federally recognized tribal land, those thresholds are 3% and 2% respectively.

Revenues generated through the program are directed as follows. A minimum of 35 percent of total investments across the program must provide a direct and meaningful benefit to vulnerable populations.

- *Carbon Emissions Reduction Account* – First recipient of revenues, limited to \$5.2 billion over first 16 years. May only be used for transportation carbon emissions reducing purposes and may not be used for 18th amendment purposes.
- *Climate Investment Account* – Second recipient of revenues. 75% allocated to the Climate Commitment Account, 25% to the Natural Climate Solutions Account.
- *Climate Commitment Account* – Intended to fund implementation of the Working Families Tax Credit; supplement the growth management planning and environmental review fund; and support a variety of projects, programs and activities that reduce carbon emissions, promote electrification and clean energy, and help transition to a clean and just economy. Subject to legislative appropriation.
- *Natural Climate Solutions Account* – Intended to increase the resilience of the state's waters, forests, and other vital ecosystems to the impacts of climate change, conserve working forestlands at the risk of conversion, and increase their carbon pollution reduction capacity through sequestration, storage, and overall ecosystem integrity. Subject to legislative appropriation.

Compliance obligations for covered and opt-in entities will not take effect until a separate additive transportation revenue act becomes law, defined as a gas tax increase of at least five cents per gallon. Rulemaking, expected to take up to two years, may commence immediately however.

No state agency may adopt or enforce a program that regulates GHG emissions for a stationary source except as provided under this act. No city, town, county, township, or other subdivision or municipal corporation of the state may implement a charge or tax based exclusively on the quantity of GHG emissions. The cap and invest program supersedes the Clean Air Rule.

**Clean Fuel Standard [HB 1091](#)** (Fitzgibbon) – The Department of Ecology is directed to adopt rules that require a 20 percent reduction in the overall greenhouse gas emissions resulting from transportation fuel by 2038. However, Ecology may not increase the carbon intensity reductions required under the program by more than 10 percent until:

- There is at least a 15 percent net increase in in-state liquid biofuel production and the use of food stocks grown or produced in Washington;
- At least one new or expanded biofuel production facility representing at least 60 million gallons of biofuel production or production capacity per year has received all siting, operating, and environmental permits and any timely and applicable appeals of such permits have concluded. At least one new facility producing at least 10 million gallons of biofuel production or production capacity must be part of achieving this threshold; and
- A Joint Legislature Audit and Review Committee (JLARC) report on the first five years of program operations has been completed, and the 2033 regular legislative session has adjourned.

Ecology must also establish a system for registering, reporting, and tracking compliance obligations and to establish bankable, tradeable credits used to satisfy compliance obligations. The legislation also provides certain rules and requirements for how the revenues generated by clean supplies, including electric utilities, can be used:

- 50 percent of the revenues must be used for transportation electrification - 60 percent of which must be located in or directly benefit designated federal Clean Air Act areas or areas designated by the Department of Health as disproportionately impacted communities.
- The other 50 percent of revenues must be spent on projects from an approved list to be developed jointly by the Departments of Ecology and Transportation. The list will be developed based on greenhouse gas emission impacts and transportation sector decarbonization potential, and must include at least four categories of projects or programs, including the provision of zero emission vehicles at no cost or a discount to certain entities and grid capacity expansions to enable transportation electrification investments.

Compliance obligations will not take effect until a separate additive transportation revenue act becomes law, defined as a gas tax increase of at least five cents per gallon. Rulemaking may commence immediately.

**The HEAL Act [SB 5141](#)** (Saldaña) – Requires the departments of Agriculture, Commerce, Ecology, Health, Natural Resources, and Transportation and the Puget Sound Partnership (covered agencies) to apply and comply with specified environmental justice requirements with respect to agency activities:

- Incorporate environmental justice into strategic planning and agency budgeting;
- Conduct environmental justice assessments on significant agency actions (significant rules, grants, capital projects, agency request legislation); and
- Community engagement planning and outreach to overburdened communities.

The legislation also establishes an Environmental Justice Council to advise covered agencies on incorporating environmental justice into agency activities. The council consists of 14 members

appointed by the Governor: 2 environmental justice practitioners; 1 at large representative; and 11 members representing communities, tribes, businesses, and workers. Covered agencies must consider guidelines developed by the council in:

- Developing required environmental justice implementation plans;
- Developing community engagement plans;
- Developing the agency's environmental justice assessment process; and
- Incorporating environmental justice principles into budget development, expenditure, and benefit decisions.

**Recycled Content Standards [SB 5022](#)** (Das) – Establishes a schedule for minimum post-consumer recycled (PCR) content standards plastic beverage containers, trash bags, and household cleaning and personal care product containers. Requires plastic producers to register with Ecology and report annually on the PCR content data of their products. Prohibits the sale of expanded polystyrene (Styrofoam) in Washington. Requires that plastic bag products be labeled with the producer's name. Requires that restaurants provide single use utensils, straws, condiment containers, and beverage lids only upon request. Establishes a stakeholder committee to make recommendations on further PCR standards by December 1.

## Health Care

**Postpartum Medicaid Expansion [SB 5068](#)** (Randall) – Requires the Health Care Authority to provide one-year of postpartum coverage through Apple Health. The coverage is implemented in two phases. In the first phase, the HCA must extend coverage from 60 days postpartum to one year postpartum for individuals who are receiving Apple Health postpartum coverage on or after the expiration date of the federal public health emergency related to COVID-19. By June 1, 2022, the HCA must provide one-year of postpartum coverage to individuals who are Washington residents and have an income at or below 193 percent of the federal poverty line.

**National 988 System [HB 1477](#)** (Orwall) – Establishes a 988 number and call center hubs, and expands the crisis response system to include suicide and behavioral health calls. Imposes a tax on radio lines to pay for system technology. Creates a Crisis Response Improvement Strategy Committee to develop an integrated behavioral health crisis response and suicide prevention system. The committee will work to create recommendations to implement the response including mobile rapid response crisis teams, mobile crisis response units, a range of crisis stabilization services, an integrated involuntary treatment system, peer and respite services; recommendations to promote equity in services for individuals of diverse circumstances of culture, race, ethnicity, gender, socioeconomic status, sexual orientation, and for individuals in tribal, urban, and rural communities.

## Housing and Homelessness

Given the economic impacts of the COVID-19 pandemic, in addition to making significant investments in the operating and capital budgets to address housing and homelessness, several important policy bills that work together to provide tenant protections and address homelessness passed. Lawmakers also provided a path to end the Eviction Moratorium enacted through executive action by Governor Inslee in place since March of 2020. Washington State became the first state in the nation to guarantee a lawyer for low-income tenants unable to afford representation in eviction court.

**Post Pandemic Tenant Protections, Right to Counsel and Landlord Mitigation Funds** [SB 5160](#) (Kuderer) Provides for legal representation of indigent tenants in eviction cases. Creates Eviction Resolution Pilot Program and requires mediation before filing of an eviction case in court. Establishes reasonable payment plan parameters not to exceed 1/3 of monthly rent. Creates landlord mitigation program when tenants vacate or default on payment plans and creates landlord grant program for direct assistance to property owners. Prohibits late fees reporting non-payment of rent and taking adverse action against tenants based on non-payment of rent from March 1, 2020 through 6 months following the expiration of the eviction moratorium.

**Revenue for Eviction Prevention and Housing Stability Services – Document Recording Fees** [HB 1277](#) (Ormsby) – Increases document recording fees by \$100 generating \$280 million for fiscal year 2021-2023 to fund operations and maintenance of permanent supportive housing (\$58.4 million FY 21-23), landlord mitigation fund (\$11.68 million FY 21-23) and the home security fund to be used for unsheltered homelessness, project based vouchers, emergency housing, rapid rehousing, eviction prevention, and rental assistance.

**Just Cause Eviction** [HB 1236](#) (Macri) – Requires property owners to provide a reason to terminate a tenancy with some exceptions for fixed term and initial leases. Specified Time Leases with initial terms of 12 months and any subsequent term of at least 6 months may be terminated without cause with 60 days advance notice (month-to-month leases may not convert to fixed term except until 90 days following the eviction moratorium). Periodic term leases that automatically convert to month-to-month or month-to-month leases require just cause to terminate with an exception for initial leases with a term of 6 to 12 months with 60 days advance notice.

**Supporting emergency shelters and housing through local planning and development regulations** [HB 1220](#) (Peterson) – Updates Growth Management Act to require planning for affordable housing and address racially disparate impacts and displacement, requires cities to include shelters, transitional housing and permanent supportive housing in zoning.

## **Police Reform**

In the wake of the murder of George Floyd and the protests that followed in the summer of 2020, the legislature focused on advancing legislation to make statewide reforms to policing and passed over ten bills. These police reform bills included:

**Oversight and accountability of Peace Officers and Corrections Officers – Decertification** [SB 5051](#) (Pedersen) – Expands grounds for decertification of law enforcement officers, including use of force violations, failure to intervene and dishonesty, establishes a data base to track officers fired for misconduct, creates a requirement that officer misconduct investigations be completed once they have begun, and expands background check requirements for law enforcement.

**Independent Investigations** [HB 1267](#) (Entenman) – Creates the Office of Independent Investigations within the Governor’s Office to investigate deadly use of force by law enforcement. The Operating Budget provides \$22 million for the establishment and operation of the office.

**Requirements for Tactics and Equipment used by Law Enforcement** [HB 1054](#) (Johnson) – Limits use of chokeholds and neck restraints, military equipment, tear gas, vehicular pursuits, firing on moving vehicles, no-knock warrants. Requires adoption of policies and procedures to ensure uniformed police

officers are identifiable and requires the Criminal Justice Training Commission to adopt model policies on the use of canines.

**Requirements for Tactics and Equipment used by Law Enforcement** [HB 1310](#) (Johnson) – Establishes statewide reasonable care standard for use of force by law enforcement officers.

**Duty to Intervene** [SB 5066](#) (Dhingra) – Requires on-duty law enforcement to intervene when excessive use of force by another law enforcement officer is witnessed and to report wrongdoing committed by another law enforcement officer.

## Public Safety

**State v. Blake Decision** [SB 5476](#) (Dhingra) – In the final days of the session, the legislature passed SB 5476 to address the Washington Supreme Court *State v. Blake* decision that struck down the Washington felony possession of controlled substances law, even if the person was possessing drugs unknowingly.

The legislation directs the Healthcare Authority to create a recovery services plan drafted by a Substance Use Recovery Services Committee to ensure a treatment-based approach for people with substance abuse disorder who become engaged with law enforcement. The bill makes knowingly possessing controlled substances a misdemeanor with a sunset date of 7/1/2023, suggesting the legislature may revisit the issue. However, the bill envisions that people with substance use disorder will be diverted from the criminal justice system as law enforcement is required to offer a referral to assessment and services in lieu of legal system involvement at least twice and may, but are not required, to make additional referrals.

Given the late timing of the negotiated compromise, the bill also makes \$88.4 million in appropriations for a recovery navigator program, a homeless outreach stabilization team and other programs and services that are not included in the operating budget. The operating budget provides almost \$85 million to the Courts, Office of Public Defense, Office of Civil Legal Aid and the Department of Corrections to address vacating and reducing sentences and pay back of Legal Financial Obligations. Full details on page 4 of the operating budget summary.

**Open Carry of Weapons** [SB 5038](#) (Kuderer) – Prohibits open carry of weapons at permitted demonstrations and the state capitol campus.

**Suspension of Licenses for Traffic Infractions – Driving While License Suspended** [SB 5226](#) (Salomon) – Eliminates suspension of license as a penalty for traffic infractions. Allows person to admit responsibility for infraction and attest inability to pay. Requires provision of information on how to prove inability to pay and obtain a payment plan. License must be suspended for 60 days with one-year probationary period following the suspension, if a person commits three or more infractions within one year, or four or more occasions in a two-year period, DOL must revoke the license of the driver for a period of 60 days and new infractions during the probationary period will result in additional 30-day suspension. Increases time to respond to traffic infraction from 15 to 30 days.

## Safety Net & Civil Rights

**Paid Family & Medical Leave** [HB 1073](#) (Berry) – Expands the look-back period for qualifying hours for workers affected by COVID-19. Provides pandemic leave assistance employee grants beginning August 1, 2021 for leave claims from 2021 through March 31, 2022. Provides grant eligibility for employees that do not meet the Paid Family Medical Leave (PFML) eligibility threshold through hours worked in 2020 and the first quarter of 2021 or who met the eligibility threshold through hours worked in 2019 and the first quarter of 2020. Creates pandemic leave assistance employer grants for employers with fewer than 150 employees for costs associated with an employee taking leave including a \$3,000 grant for hiring a temporary worker to replace the employee on leave; or a grant up to \$1,000 for significant wage-related costs related to the leave. \$168.7 million included in final operating budget for implementation.

**Working Family Tax Credit** [HB 1297](#) (Thai) – Expands eligibility for the working families tax exemption and the program is fully funded in the budget. The minimum payment for workers without children will receive an annual \$300 payment while the maximum payment for workers with three or more children will be \$1,200. Ensures that children with individual taxpayer identification numbers (ITINs) qualify to receive the benefit. The bill includes language to tie the benefits to annual inflation beginning in 2024. \$260.9 million included in final operating budget.

**Temporary Assistance for Needy Families (TANF)** [SB 5214](#) (Nguyen) – Expands eligibility for TANF benefits including creating a hardship extension to the 60-month lifetime limit on TANF benefits if a person received a TANF cash grant during a month on or after March 1, 2020, when Washington's unemployment rate is at or above 7 percent. The extension is equal to the number of months that the person received a TANF grant during a month of high unemployment. All families who received TANF since March 1, 2020 are eligible for a hardship extension, regardless of whether they are current recipients. The operating budget includes \$52.2 million for a 15% TANF cash grant increase and \$27.2 million for Time Limit Extensions for those experiencing continued hardship.

**Restoration of Voting Rights** [HB 1078](#) (Simmons) – Automatically restores the right to vote to a person convicted of a felony once they are not serving a sentence of total confinement under the jurisdiction of the Department of Corrections. Removes provisions authorizing the revocation of provisional restoration of voting rights upon failure to pay legal financial obligations.

## Safety Net & Civil Rights

### Bills Passed

<u>Bill Details</u>	<u>Status</u>	<u>Sponsor</u>
<a href="#"><u>HB 1072</u></a> <b>Civil legal aid funds/use</b> Removes the prohibition on the use of civil legal aid funds by the Office of Civil Legal Aid (OCLA), to represent individuals who are in the United States without legal authority.	Session Law	Lekanoff
<a href="#"><u>E2SHB 1073</u></a> <b>Paid leave coverage</b> Expands coverage of the Paid Family and Medical Leave programs. Expands the look-back period for qualifying hours for workers affected by COVID-19. Provides pandemic leave assistance employee grants beginning August 1, 2021 for leave claims from 2021 through March 31, 2022. Provides grant eligibility for employees that do not meet the Paid Family Medical Leave (PFML) eligibility threshold through hours worked in 2020 and the first quarter of 2021 or who met the eligibility threshold through hours worked in 2019 and the first quarter of 2020. Creates pandemic leave assistance employer grants for employers with fewer than 150 employees for costs associated with an employee taking leave .	Session Law	Berry
<a href="#"><u>ESHB 1078</u></a> <a href="#"><u>(SB 5086)</u></a> <b>Voter eligibility/felony</b> Restoring voter eligibility for all persons convicted of a felony offense who are not in total confinement under the jurisdiction of the department of corrections.	Session Law	Simmons
<a href="#"><u>ESHB 1140</u></a> <b>Juvenile access to attorneys</b> Concerning juvenile access to attorneys when contacted by law enforcement. Requires law enforcement to provide juveniles with access to an attorney prior to any waiver of the juvenile's constitutional rights.	Del to Gov	Johnson
<a href="#"><u>SHB 1151</u></a> <b>Public assistance</b>	Session Law	Leavitt

Allows Consolidated Emergency Assistance to be provided more than once in a 12-month period, provides a one-time cash benefit and transitional food assistance, and directs the Department of Social and Health Services to update the standards of need for cash assistance programs.

---

[ESHB 1297](#)  
[\(SB 5387\)](#)      **Working families tax exempt.**      Session Law      Thai

Expands eligibility for the working families tax exemption and the program is fully funded in the budget. The minimum payment for workers without children will receive an annual \$300 payment while the maximum payment for workers with three or more children will be \$1,200. Ensures that children with individual taxpayer identification numbers (ITINs) qualify to receive the benefit. The bill includes language to tie the benefits to annually beginning in 2024.

---

[HB 1399](#)      **Prof. licensure/convictions**      Session Law      Vick

Reduces barriers to professional licensure for individuals with previous criminal convictions. Creates a process for a person with a criminal conviction to request a determination of whether that criminal history is disqualifying for obtaining a professional license administered by the Department of Licensing.

---

[SHB 1411](#)      **Health care workforce**      Del to Gov      Simmons

Prohibits the Department of Social and Health Services from automatically disqualifying a person who has a criminal record containing certain crimes from working with vulnerable people or acting as a long-term care, vocational, or employment services provider. The bill also establishes a work group to identify an informed consent process to allow older adults and people with disabilities to hire an individual with a criminal record that would otherwise disqualify the person from providing paid home care services.

---

[ESSB 5061](#)  
[\(HB 1098\)](#)      **Unemployment insurance**      Session Law      Keiser

Provides unemployment insurance benefits to high risk individuals, or those who live with high risk individuals, who voluntarily quit their jobs during a public health emergency if they cannot work from home for that employer, but are able and available to work from home for other employers. Waives the one-week waiting period and shared work benefits when paid by the federal government.

---

[2SSB 5214](#)      **Economic assistance programs**      Session Law      Nguyen

Concerning economic assistance programs. Reinvests in and reduces barriers to Temporary Assistance for Needy Families (TANF). Allows a person may qualify for a hardship extension to the 60-month lifetime limit on TANF benefits if they received a TANF cash grant during a month on or after March 1, 2020, when Washington's unemployment rate is at or above 7 percent.

---

[ESSB 5284](#)      **Subminimum wage/disabilities**      Session Law      Randall

Eliminates the subminimum wage for persons with disabilities.
