Notes

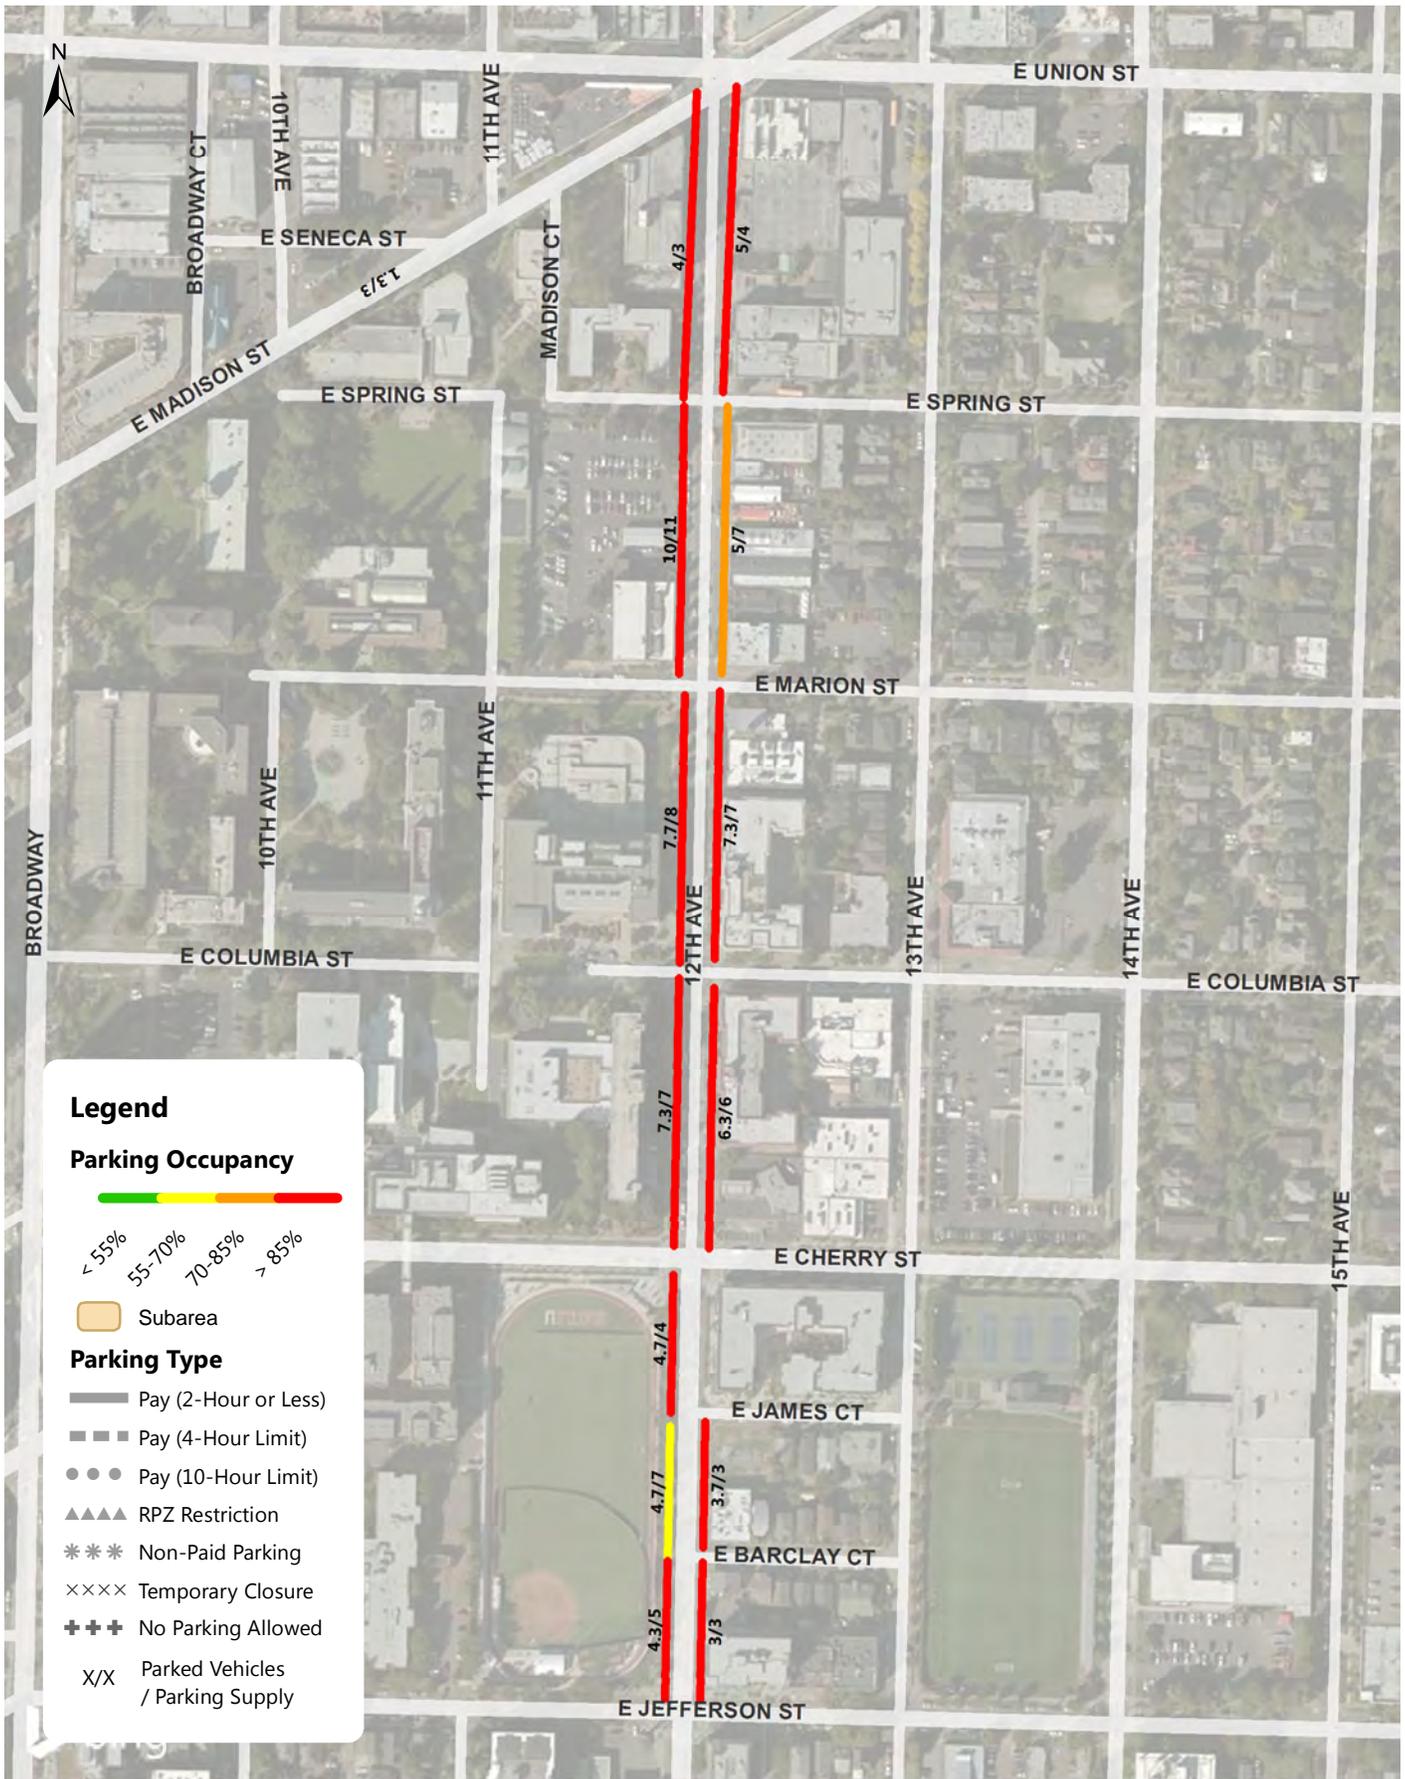

This map book is intended to provide additional detail related to each blockface within the neighborhood study areas. Notes related to these maps include:

- **Average Peak 3 Hours of Each Blockface** – The data displayed represents the average of the three highest hours of each individual blockface for the time period indicated (i.e., 11 a.m. to 5 p.m., 8 a.m. to 5 p.m., and 8 a.m. to 4 p.m.). This may occur at a different time than the average peak 3 hours of the neighborhood as a whole.
- **Occupancy for 9 to 10 a.m. and 6 to 7 p.m. of Each Blockface** – The data displayed represents the average occupancy over the two-hour period (i.e., the average of 9 to 10 a.m. and 10 to 11 a.m. and average of 6 to 7 p.m. and 7 to 8 p.m.) for each individual blockface.
- **Temporary Closure** – This indicates a blockface closure related to either construction or an event.
