

N 34th St Mobility Project

Starting as early as May, the Seattle Department of Transportation will be changing the layout of the road along N 34th St from Fremont Ave N to Stoneway Way N. The work will take place overnight and will involve the removal of existing road markings and the placement of new ones. We will also install protected bike lanes.

The work should take 2 weeks and will require detours and temporary driveway closures while the new paint dries (approximately 3 hours dependent on conditions). Details of the detours are on the reverse.

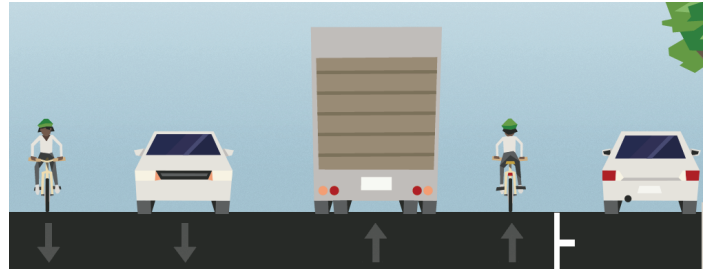

WHAT TO EXPECT DURING CONSTRUCTION

Typical construction hours are weeknights from Monday to Thursday from 7 PM until 7 AM. Other expected construction effects may include:

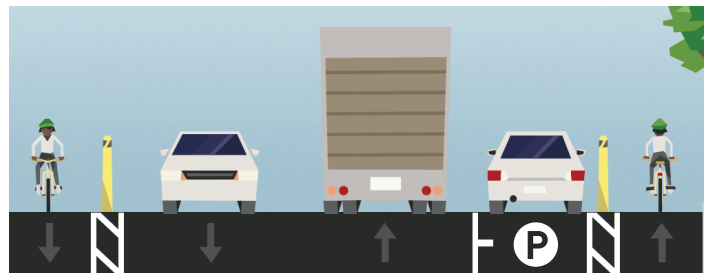

- Driveway access will be limited at times
- Noise and vibration
- Dust and debris
- Construction staging and parking impacts near the work sites
- Detours for people walking or riding bikes
- Roadway closures and detours for vehicle traffic
- Changes in construction schedule due to unforeseen circumstances (i.e., weather, soil conditions, etc.)
- Temporary no parking along north side of N 34th St

This project is funded by the 9-year Levy to Move Seattle, approved by voters in 2015. Learn more about the levy at www.seattle.gov/LevytoMoveSeattle.
