RECONNECT WEST SEATTLE:

Neighborhood Prioritization Process

SOUTH PARK

Your opinion matters, please fill out neighborhood prioritization process ballot by July 31st.

The unexpected closure of the West Seattle High-Rise Bridge has had major traffic and environmental impacts on the South Park neighborhood. To deal with rapidly changing community needs, we need your help to prioritize transportation projects that will be most helpful in the short term and in the long term. The list of potential projects was generated from ideas we have received from community, along with some of our own ideas, and projects from existing transportation and neighborhood plans. The list you'll see shows all identified potential projects that could be implemented quickly within a year and an estimated cost of \$100,000 or less per project.

After we receive your priorities, SDOT will work with the West Seattle Bridge Community Task Force to look at the ideas presented to us through the lens of budget restrictions, potential transportation-related conflict, equity, safety, mobility, sustainability, livability and community support. To be straightforward, the City'sresources and capacity are limited. We will make every attempt to honor the neighborhoods' feedback and suggestions; however, not all projects will be able to move forward. Once the plans are developed, we will hold a follow-up meeting with your neighborhood to discuss and create a plan for action.

For more information or if you have questions, please visit our website at www.seattle.gov/reconnectwestseattle. To request paper ballots in other languages contact us at WestSeattleBridge@seattle.gov or 206-400-7511. Online ballots are also available on the project website: www.seattle.gov/reconnectwestseattle.

SOUTH PARK BALLOT

What is your primary connection to this neighborhood? □ I live here □ I work here	Please pick up to 10 projects that you would prioritize to help reduce the impacts of the West Seattle High-Rise Bridge closure. NOTE: Not all potential projects are mapped and there may be duplicates due to overlaps with other potential projects.
