State Environmental Policy Act (SEPA) checklist coming soon

We'll soon complete SEPA environmental review and will issue a Mitigated Determination of Non-Significance (MDNS) and checklist in March. Once issued, there will be a 14-day public comment period followed by a 7-day appeal period on the MDNS and checklist. We'll notify the community when the documents are

issued, including where to find them, what the comment period dates are, and how to comment, on our project webpage and through email updates. To learn more about the project, the SEPA process, and the upcoming comment period, please attend our drop-in sessions, visit our webpage, and sign up for email updates.
