

# GREENWOOD AVE N PAVING AND PEDESTRIAN SAFETY PROJECT

July 2019

## PROJECT DESCRIPTION

The Seattle Department of Transportation is planning to repave a section of Greenwood Ave N, as well as construct a new sidewalk and pedestrian crossing. These improvements will help achieve Seattle's Vision Zero goal to end all traffic deaths and serious injuries by 2030.

## PROJECT ELEMENTS

The first phase of the project included a new sidewalk, planting strip, curb and gutter along the east side of Greenwood Ave N, between N 137th St and N 145th St. Crews also installed a new pedestrian-activated traffic signal at N 137th St.

The second phase of the project will repave the roadway surface and construct a new sidewalk, planting strip, curb and gutter along the west side of Greenwood Ave N, between N 136th St and N 145th St.

## CONSTRUCTION IMPACTS

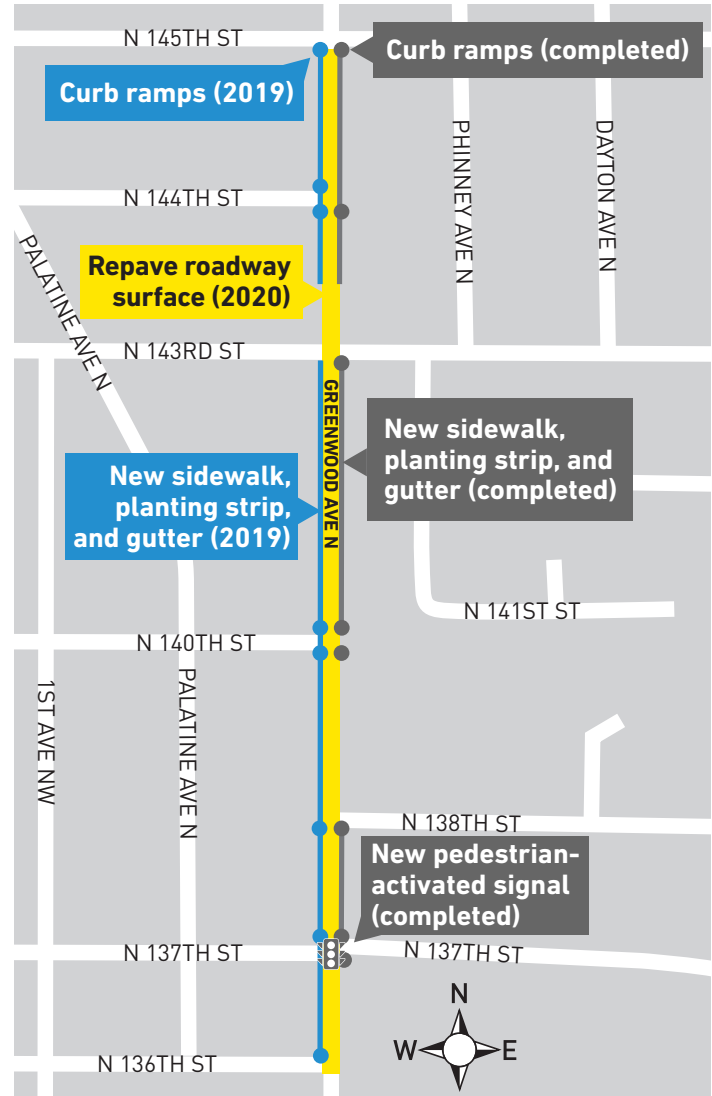

Throughout construction, crews will close one southbound lane on Greenwood Ave N within the project area to create a safe work zone. These lane closures will occur during off-peak hours to minimize traffic disruptions for commuters.

There may be additional lane closures during paving work in 2020. These closures will be scheduled to avoid peak commute times and crews will maintain at least one lane in each direction at all times.

When installing sidewalks in front of some residences, crews may temporarily close driveways to allow concrete to cure. These closures will generally be approximately 24 hours in duration and we will notify you in advance.

We will share more details about construction schedule and impacts in the coming weeks.

We thank you for your patience during construction.

Seattle  
Department of  
Transportation

*Installation of a pedestrian-activated traffic signal at N 137th St*

*New sidewalk and seating at a bus stop on Greenwood Ave N*

*ADA-compliant curb ramps at N 143rd St*

## SCHEDULE AND FUNDING

The first phase of construction was completed in December 2018.

Construction on the second phase will begin in September 2019. Crews will complete pedestrian safety improvements on the west side of Greenwood Ave N in late 2019 and will return in spring 2020 to complete the weather-dependent roadway paving.

This project is funded by the Safe Routes to School Program, the Sidewalk Development Program, and the 9-year Levy to Move Seattle, approved by voters in 2015.

## WORKING WITH THE COMMUNITY
