

This table lists recommended amendments to the 2020 edition of the City of Seattle Standard Specifications and Plans for Road, Bridge and Municipal Construction.

For City Contracts, the amendments presented below are only binding if they are inserted in to a Project Manual (pre advertisement, via the addendum process or through a change order).

For SDOT issued Street Use Permits, the amendments will be adopted per the discretion of SDOT and referenced in the applicable Street Use Permits.

Amendments posted for the first time are highlighted in yellow in the "Revision Date" column.

SP = Standard Plan

Note Standard Plan amendments are posted as redlined PDF's, clean PDF's and CAD files on the City of Seattle's Standards website under the amendment tab and are also listed below in this table.

The most recent version of the amendments to the 2020 edition of the City of Seattle Construction Standards can be found here:
