PANEL FEEDBACK

Feedback	Date Given	Status	Date Completed
----------	------------	--------	----------------

Framework Feedback from Panel

1. Strategic Role: Include concept of “enabling” people in strategic role	June 10		
2. Vision: is it really important that people know SPU’s doing a good job? Isn’t it more important just to do a good job?	June 10		
3. Overall comments/questions on Strategic Objectives: - Some have a 1-2 word header; others do not. Need to be consistent. - Where in the strategic objectives do we address structural challenges overall (unions, City policies, other)?	June 10		
4. Environmental Objectives: - Think of conservation as wise use; focus on efficiency and strategy (5 th objective) - Setting an objective of conducting <u>all</u> SPU operations in a sustainable way may be impossible (2 nd objective) - Not sure what distinction we’re making between stakeholders, public and private entities (3 rd objective) - Often a variety of ways to meet environmental & public health mandates, but this concept is missing from the first objective	June 10		
5. Customer Focus area: What do we mean by “engaged”? Maybe we don’t want all of our customers engaged with us. Maybe different “flavors” of engagement – e.g., customer recycling; conservation. Maybe what we really want to say is we want customers to be effective in their use of SPU services.	June 10		
6. Customer Objectives: - Reword objective 1 (minimize customer effort) to be stated positively rather than negatively - What do we mean by the third objective to “create an opportunity to participate”? Need to clarify	June 10		
7. Workforce SWOC: Reword the SWOC that says aging workforce leads to increases in OTJ injuries	June 10		
8. Workforce Objectives: - Consider saying “enhance” workplace safety instead of “improve” workplace safety (objective 2) - What do we mean by “systems” in objective 4? If not just IT systems, then pick a different word.	June 10		
9. Consider SWOC by LOB, at least for the service quality objective in OpEx. Otherwise, we are saying we have sound infrastructure but we have underperforming infrastructure. Also, consider using the word “reliable” instead of “sound.”	July 1		
10. Consider including the concept of affordability in the Customer focus area as well as the OpEx focus area.	July 1		
11. In the Fiscal Integrity strategic objective, specifically call out improving internal controls, maybe by stating it as a weakness	July 1		
12. SPU’s value statements do not include the environment – is this a miss?	July 1		
13. Put something into the DWW SWOC about how dependent we are on our customers actions and activities	July 1
