

## Construction starting on Kenyon Way S

We're excited to let you know that we're building new pedestrian improvements in your neighborhood. The Kenyon Way S Sidewalk Project is funded through the Seattle Department of Transportation's (SDOT) Safe Routes to School and Urban Trails and Bikeways Programs and will enhance safety to Wing Luke Elementary for kids and families and make it easier to walk and bike in the neighborhood.

Once the project is complete, traffic circulation will change to one-way, eastbound on Kenyon Way S.

### CONSTRUCTION TIMELINE

Construction in your neighborhood will begin February 21 and last through May 2023.

### WHAT TO EXPECT DURING CONSTRUCTION

Construction requires a 24-hour closure of Kenyon Way S to vehicle traffic for approximately 6 weeks. A signed detour route will be provided for vehicles. Access for people biking will be maintained on Kenyon Way S. Access for people walking will be maintained using the stairs at top of the hill.

During construction, you can expect:

- Closure of Kenyon Way S to vehicle traffic
- Detour route for people walking, rolling, and biking on Kenyon Way S
- Typical weekday working hours from 7 AM - 5 PM
- Noise, dust, and vibrations during active work
- Materials and equipment staged in the area
