CAMP DENNY
 O.O. DENNY PARK

Coast and Geodetic Survey charts show a submerged forest in Lake Washington just north of here, west of St. Edwards Seminary; clear of obstructions within 30 ft. of the lake level.

PARK was country estate of Oran O. Denny: "Kla-Ma-Nie" (Chinook Indian word meaning "Away from"). It is the bequest of his widow, Helen V. Denny, and named by her to his memory. He was the first boy born in Seattle (1853: parents-A. A. + Mary Boren Denny) in a log cabin @ 1st + Marion. Built mansion on Boren Ave (1904); engineer on sidewheeler Eliza Anderson, popular steamboat famed for its steam calliope on board; was vice-chancellor of Pythian Lodge. (x) The Denny home was near log cabin + barn, became the residence of the Park Caretaker until 1955. When the Federal Govt bought Sand Point from Morgan Carkeek in 1926, the site included the original Carkeek Park, so the youth camp buildings were barged across the Lake to this location (and a new location for Carkeek Park was found). The first camp horse, "Denver", was retired from the Seattle Police force; now the Zoo furnishes the horse.

In 1967 the Park Board expressed appreciation to the Downtown Optimist Club for its many years of contributions and improvements to Camp Denny and other Department programs for youth. In 1968 a memorial flag staff + plaque placed to honor Robt. B. Groninger, ardent Optimist contributor of funds + labor at Camp; pres. of Groninger + Co. Insurance.

In 1936 WPA built trails, seawall, log barn + cabin + picnic shelter. (Shelter removed in 1970)
