Connections**JANUARY 2026****Seattle City Light's 2025
Year in Review**

In 2025, City Light achieved a major milestone with the creation of our 10-Year Strategic Roadmap. This plan connects our daily work to the needs of our customers, workforce, and communities, preparing us for future challenges. We focused on key priorities like improving system reliability, finding new power sources, and enhancing processes to deliver safe, clean, and affordable energy. Guided by six focus areas – reliability, customers, power supply, sustainability, workforce, and technology – we're focused on building trust, fostering innovation, and creating a brighter energy future. Thank you for supporting us as we lay the foundation for the next decade.

Spotlight

Winter weather can cause tree branches to fall, posing risks to safety and power reliability. Inspect your trees for broken branches or damage, and have them pruned while dormant to encourage healthy spring growth. Always check for branches near power lines or transformers before pruning. If you're unsure, contact our Power Line Clearance team for assistance. Learn about safe tree management and our vegetation management program on our website.

Plugged In

During a power outage, protect your appliances with these simple steps. Unplug electronics like TVs and computers to avoid damage from power surges, use surge protectors for added safety, and keep your refrigerator and freezer doors closed to preserve food. Turn off most lights but leave one on to know when power is restored. These precautions can help reduce risks when the power comes back on. Visit our website for more ways to stay safe and prepared.

Powerful Tips

Start 2026 with a resolution that pays off: saving energy! Whether managing a home or business, energy efficiency lowers bills, boosts comfort, and supports a sustainable future. From simple fixes like window caulking to major upgrades like HVAC retrofits, we offer programs, incentives, and expert advice to help you achieve your goals. Let's make 2026 a year of impactful change together by saving energy and contributing to our region's climate goals!
