

Grow Your EV Charging Network with Seattle City Light

With Washington State setting a goal for all new vehicles to be electric by 2035, Seattle City Light offers charging providers significant financial incentives and support to scale your operations in this rapidly expanding market.

The Seattle market offers opportunities for charging providers to grow your business

- **High Demand:** More EV drivers need charging stations every day
- **Potential Site Hosts:** Property owners ready to install chargers

How City Light Can Help You Succeed

- | | |
|---|---|
|  Up to \$150,000-\$280,000 in financial incentives |  Resources for overburdened communities |
|  Free site assessments to evaluate locations and requirements |  Dedicated staff support |
|  Expert technical guidance |  Partial incentive payment before or during construction |
|  Charger safety and security planning | |

Basic project requirements

- Sites must be located within City Light's service area
- Minimum 4 charging ports per site
- Public accessibility 7 days/week, 12+ hours daily
- Each charger must meet minimum power output requirements

Available Funding to Help You Build

Charging Equipment Incentive

CHARGING EQUIPMENT	OVERBURDENED COMMUNITIES*	OTHER AREAS
Level 2 Chargers (>6.6 kW minimum)	100% up to \$5,000	50% up to \$2,500
Fast Chargers (100 kW minimum)	100% up to \$40,000	50% up to \$20,000
Fast Chargers (150 kW minimum)	100% up to \$80,000	50% up to \$50,000
Fast Chargers with Battery Storage	100% up to \$150,000	50% up to \$125,000

Make-Ready Incentive

MAKE-READY SUPPORT	OVERBURDENED COMMUNITIES*	OTHER AREAS
Level 2 Chargers (>6.6 kW minimum)	100% up to \$10,000	50% up to \$5,000
Fast Chargers (100 kW minimum)	100% up to \$150,000	50% up to \$50,000
Fast Chargers (150 kW minimum)	100% up to \$200,000	50% up to \$100,000
Fast Chargers with Battery Storage	75% up to \$50,000	50% up to \$25,000

*Overburdened communities are areas with a 9.0 or higher rank on the [Washington State Environmental Health Disparities map](#).

The make-ready incentive covers electrical equipment and installation costs needed to prepare a site for EV charger installation. You may be eligible for both incentives. Contact City Light to learn more.

How to Start

1. Email SCL_PublicCharging@seattle.gov to express interest.
2. Explore potential project options and review program requirements with our team.
3. Work with a contractor to submit a proposal and site plan for program application.
4. Submit your application to begin the incentive reservation process.
