

Enroll and Earn up to \$90 Your First Year

What Is the TempWise Pilot?

TempWise allows you to use your Sensi, Honeywell, Google Nest, or Mysa smart thermostat to lower your energy use and earn participation incentives. Enrolling takes just a few minutes, and participating is easy. Consider enrolling today, as spots are limited. You'll earn a one-time payment of \$50 for enrolling and up to \$40 a year (or \$20 each season) for continued participation.*

How Does It Work?

During times when energy use is high in our community, we'll call an "event" to automatically adjust your thermostat by a few degrees for up to three hours. You are always in control of your smart thermostat and can opt out of an event at any time.

This small temperature adjustment will add up to big energy reductions when lots of people participate. By signing up for this pilot, you can help Seattle City Light reduce stress on the electricity grid to help the environment and community!

Ready to enroll?

Visit seattle.gov/city-light/tempwise to get started.

Not eligible to enroll? Visit seattle.gov/city-light/residential-services/home-energy-solutions or call us at **(206) 684-3800** to get connected to other available programs.

How Do I Know if I Am Eligible?

To be eligible[†] to enroll, you must:

- Be a Seattle City Light residential customer
- Own an eligible Sensi, Honeywell, Nest, or Mysa smart thermostat controlling an electric-powered furnace, baseboards, heat pump, or central A/C system
- Have Wi-Fi (mobile hot spots not included)
