

Dear City Light Stakeholder:

Thank you for your interest in speaking with the City Light Review Panel on the issue of rate design. I am writing to provide you with further information about the two October Panel meetings at which we will be hearing from stakeholders.

As previously shared with you, the meetings will be on October 9th and October 23rd, from 11AM - 2PM. The meetings will be held at 901 5th Avenue, Room 1930 (19th floor), in downtown Seattle.

We would like to be able to accommodate schedule preferences you may have for your presentation and confirm the presenter schedule in advance.

**Stakeholders wishing to speak with the Review Panel in person should contact Jenny Levesque at [jenny.levesque@seattle.gov](mailto:jenny.levesque@seattle.gov) / 206.684.3026 no later than Wednesday, October 3, to confirm the date for their presentation. With advance notice, we hope to be able accommodate requests for time slots earlier or later in the meetings. Stakeholders unable to attend the meetings for presentation are encouraged to submit comments in writing to the Review Panel at [SCL CLRPquestions@seattle.gov](mailto:SCL_CLRPquestions@seattle.gov)**

The goal of the meetings is to provide an opportunity for stakeholder presentation, as well as questions and brief discussion between presenters and the Review Panel.

The City Light Review Panel is a volunteer citizen panel established by the City Council to provide advice and input to City Light, the City Council and the Mayor on City Light's strategic plan and elements of the strategic plan including financial policies, cost allocation, rate design and operational efficiency.

On July 9, 2018, Seattle City Council Resolution 31819 charged the City Light Review Panel, in partnership with the City Light General Manager, to undertake a process to make recommendations on updated rate design for City Light in consultation with community partners. The October 9 and October 23 meetings are the first phase of this community partner consultation.
