We have attempted to bring in more customers by hosting events such as karaoke, spoken word, DJ's, etc. However, it has been difficult to maintain these operations and continue to just serve hookah to our clientele.

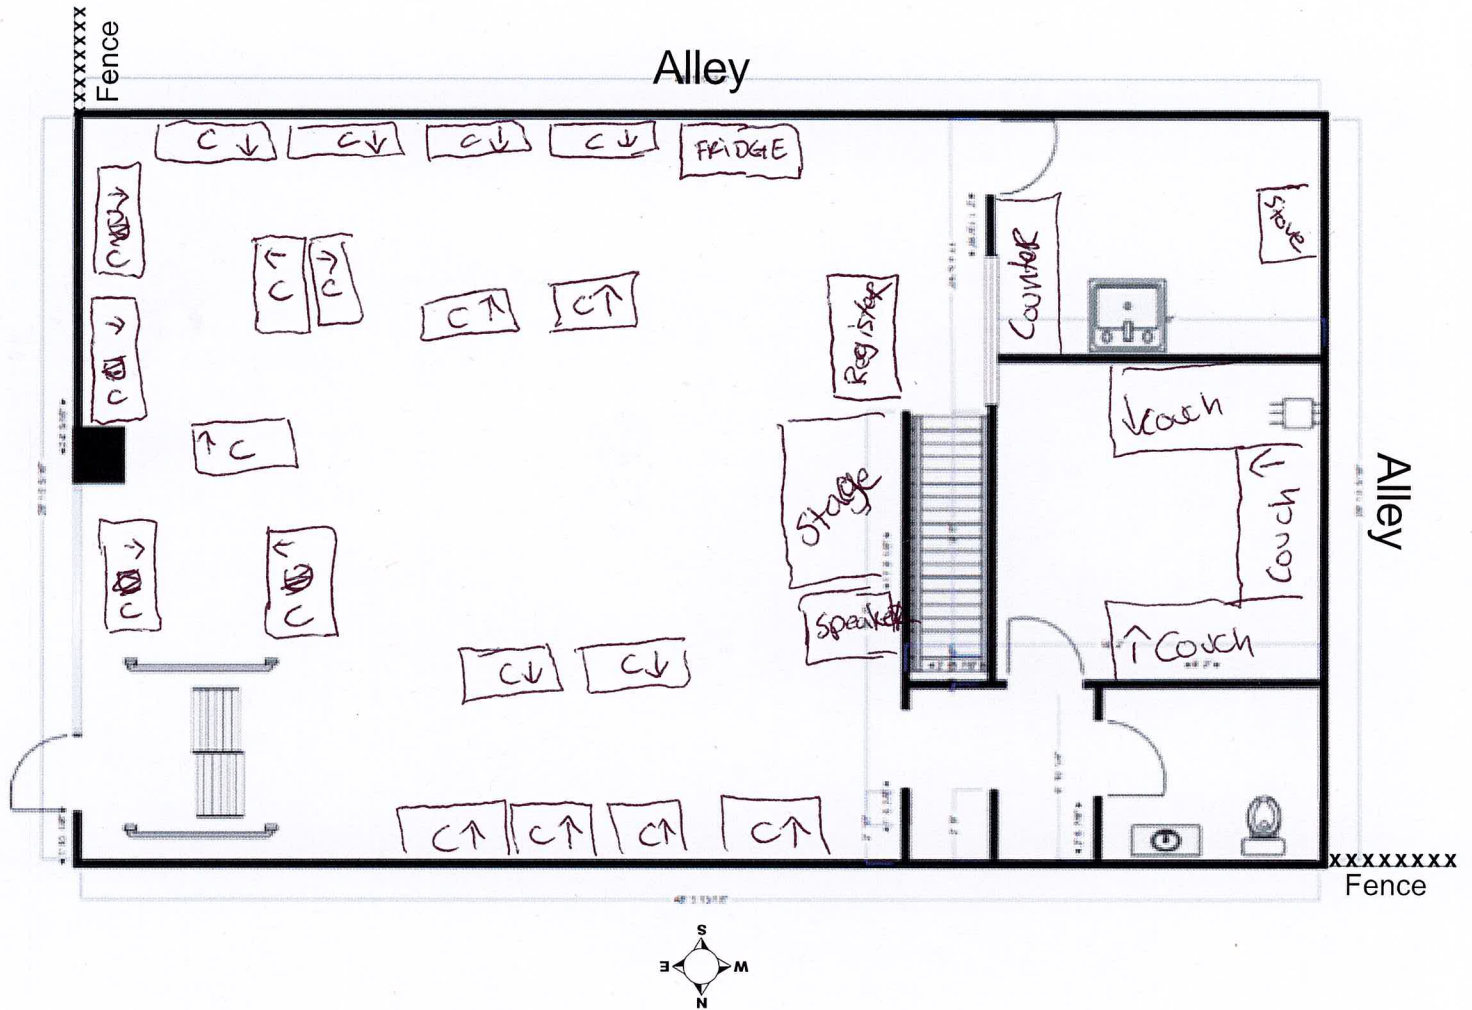

There has NOT been any alterations to the exterior building. We are planning to create a sign for the business and have it hanging outside of the building within the next few months. No security cameras have been installed. No paint has been applied and no changes to the windows have been made.
