Design Plan

I'm excited to share the design plan for Riccio Sausage Co.'s flagship Pike Place Market location, which brings together a clean, modern aesthetic rooted in our existing visual identity. The mood board sets the tone with a black-and-white palette that emphasizes simplicity, contrast, and timeless elegance. Our annotated floor plan reflects a thoughtful layout that balances flow, function, and guest experience. Signage concepts build on our current logo and brand elements, ensuring consistency while introducing subtle refinements for the new space.

Thank you,

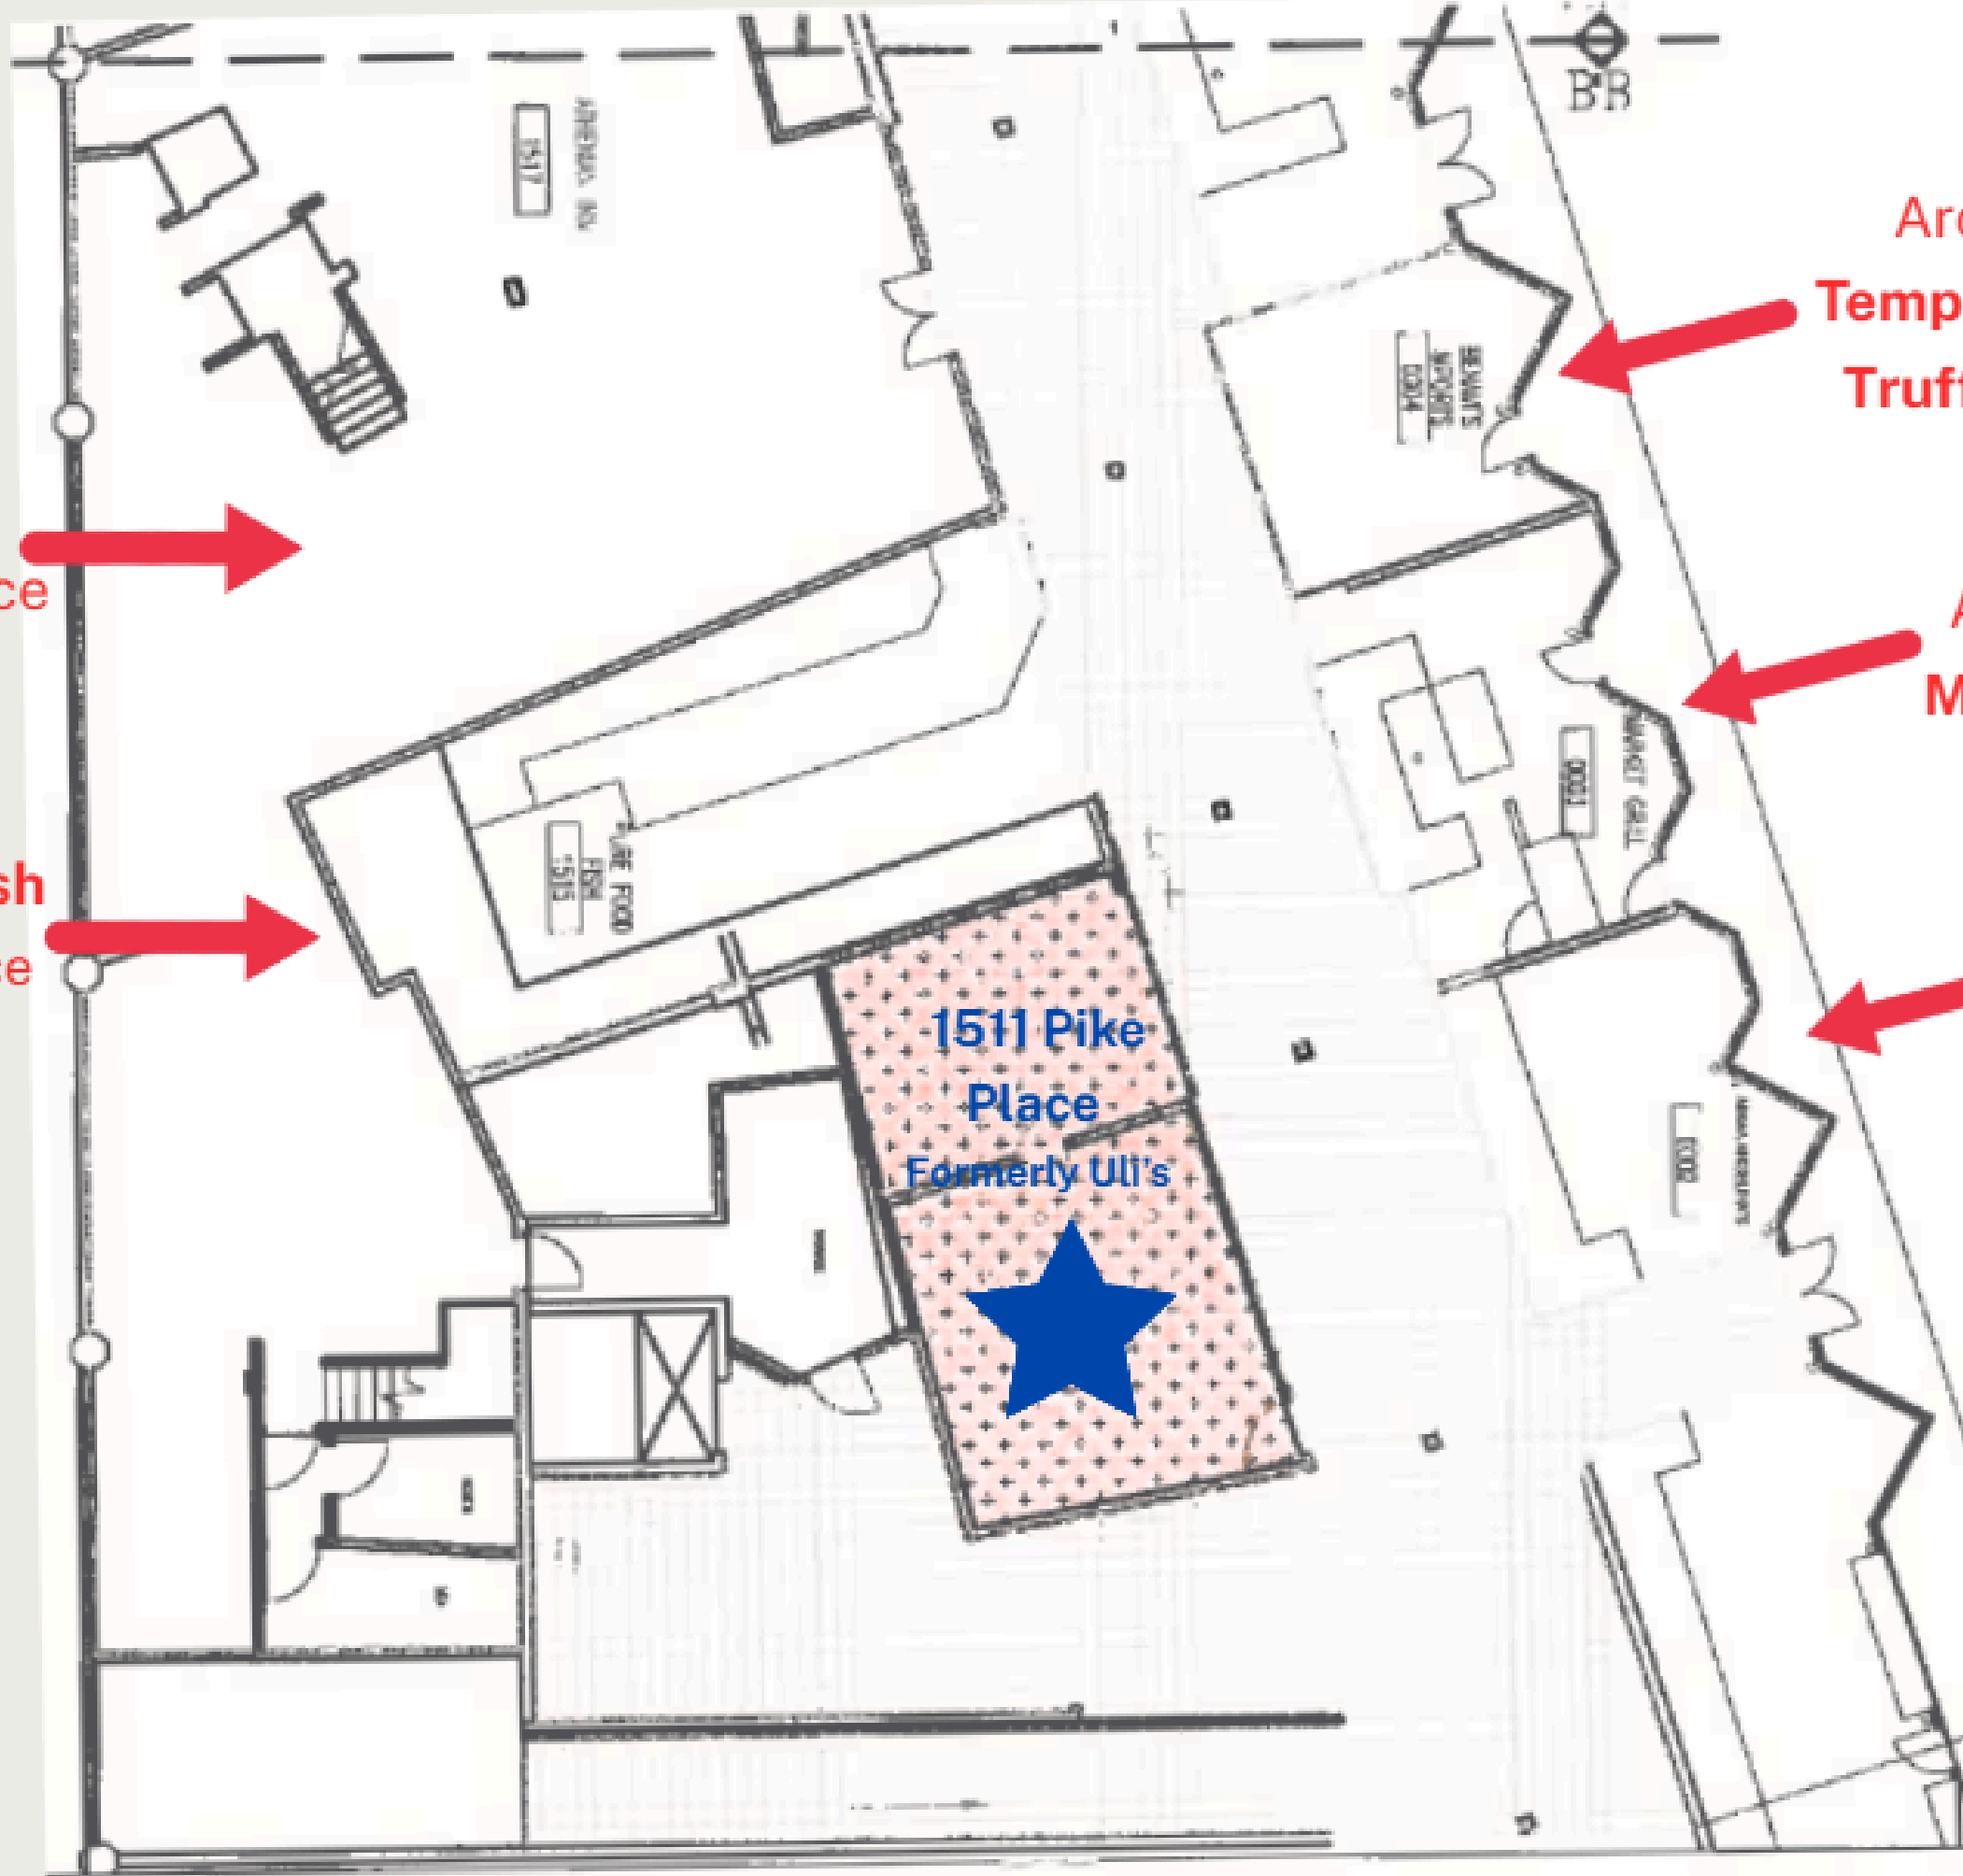

Stanislao Riccio
