Staff Report

Board meeting Feb 18, 2026

Board Members Please Note: The citations from the District Ordinance, Rules for the Pioneer Square Preservation District, and Secretary of the Interior's Standards listed below are for your consideration in addition to any other citations you find relevant in considering each application.

021825 **King Street Station**

303 S Jackson St

Applicant: Kate Fernandez, Office of Arts and Culture

Proposed: Installation of artwork/sign

Staff report: The Board was briefed on the project on December 17, 2025. The Board generally supported the project including larger letters for a sign considering installation was also a sculpture. Many Board members expressed preference for the red orange color that coordinated well with the historic King Street Station sign. Board requested more information on the ADA considerations and lighting. The Board might also consider that the sculpture's communication of "Arts" is not specific to the organization but inclusive of other art tenants as well.

Draft Motion:

I move to recommend granting a Certificate of Approval for installation of artwork/sign. All per the applicant's submittal.

The Board directs staff to prepare a written recommendation of approval based on considering the application submittal and Board discussion at the Feb 5, 2025 public meeting and forward this written recommendation to the Department of Neighborhoods Director.

Seattle Municipal Code

23.66.030 Certificates of Approval required

Certificate of approval required. No person shall alter, demolish, construct, reconstruct, restore, remodel, make any visible change to the exterior appearance of any structure, or to the public rights-of-way or other public spaces in a special review district, and no one shall remove or substantially alter any existing sign or erect or place any new sign or change the principal use of any building, or any portion of a building, structure or lot in a special review district, and no permit for such activity shall be issued unless a certificate of approval has been issued by the Department of Neighborhoods Director.

23.66.160 Signs

B. To ensure that flags, banners and signs are of a scale, color, shape and type compatible with the Pioneer Square Preservation District objectives stated in Section 23.66.100 and with the character of the District and the buildings in the District, to reduce driver distraction and visual blight, to ensure that the messages of signs are not lost through undue proliferation, and to enhance views and sight lines into and down streets, the overall design of a sign, flag, or banner, including size, shape, typeface, texture, method of attachment, color, graphics and lighting, and the number and location of signs, flags, and banners, shall be reviewed by the Board and are regulated as set out in this Section 23.66.160. Building owners are encouraged to develop an overall signage plan for their buildings.

C. In determining the appropriateness of signs, including flags and banners used as signs as defined in Section 23.84A.036, the Preservation Board shall consider the following:

1. Signs Attached or Applied to Structures.

- a. The relationship of the shape of the proposed sign to the architecture of the building and with the shape of other approved signs located on the building or in proximity to the proposed sign;
- b. The relationship of the texture of the proposed sign to the building for which it is proposed, and with other approved signs located on the building or in proximity to the proposed sign;
- c. The possibility of physical damage to the structure and the degree to which the method of attachment would conceal or disfigure desirable architectural features or details of the structure (the method of attachment shall be approved by the Director);
- d. The relationship of the proposed colors and graphics with the colors of the building and with other approved signs on the building or in proximity to the proposed sign;

- e. The relationship of the proposed sign with existing lights and lighting standards, and with the architectural and design motifs of the building;
- f. Whether the proposed sign lighting will detract from the character of the building; and
- g. The compatibility of the colors and graphics of the proposed sign with the character of the District.

Rules for the Pioneer Square Preservation District

III. GENERAL GUIDELINES FOR REHABILITATION AND NEW CONSTRUCTION

Rehabilitation is defined as the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features which convey its historical, cultural, or architectural values.

XX. RULES FOR TRANSPARENCY, SIGNS, AWNINGS AND CANOPIES

The Pioneer Square Preservation Ordinance reflects a policy to focus on structures, individually and collectively, so that they can be seen and appreciated. Sign proliferation or inconsistent paint colors, for example, are incompatible with this focus, and are expressly to be avoided. (8/93)

B. General Signage Regulations

The intent of sign regulations is to ensure that signs relate physically and visually to their location; that signs not hide, damage or obscure the architectural elements of the building; that signs be oriented toward and promote a pedestrian environment; and that the products or services offered be the focus, rather than signs. (8/93)

Secretary of Interior Standards for Rehabilitation

9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work will be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Issued: February 11, 2026
