Project address - 1409 E Prospect St.

Company - Custom Pavers and Design
License - #CUSTOPD853DC
Bonded- #100269657
Insured- #NPP8805724

Description of proposed work: Demo and install pavers in place of existing concrete driveway.
Installation of pavers will be installed in the same footprint of the original driveway with
exception of two areas shown in photos attached which will widen the driveway near the garage.
Install 3 pathways using pavers.

used on
driveway, landing
and all pathways.

Historical Photos

The historical photos below show the driveway was once before paved. The plan is to remove the existing planter bed and restore the original footprint of the driveway in this area.
