Q12 Meeting Themes / What we heard: Record some of what you heard at the event. Be clear about whether the theme is an individual point of view or an observation / summary from a group. Limit this to 5-7 themes. For more guidance, check out these tips on how to summarize.

Concerns about visual impacts and perceived accessibility of elevated station

Station as a place/hub, not just a pass-through that enhances community character and existing assets (open space, cultural center, art); include gathering space

Consider how wide variety of users will get there; accommodate transfers from bus and car

Prioritize affordable housing and food accessibility

Feel like being figuratively and literally "passed over" for West Seattle; station should demonstrate intentional investment in Delridge

Interested in how neighborhood will change, and how community can help shape that change
