Q12 Meeting Themes / What we heard: Record some of what you heard at the event. Be clear about whether the theme is an individual point of view or an observation / summary from a group. Limit this to 5-7 themes. For more guidance, check out these tips on how to summarize.

1. Concern over size and location of station and guideway if above grade alternative is chosen
2. Concern over station access; questions on future KC Metro routes, onsite parking, and pedestrian access
3. Concern over negative impacts during construction as well as long term impacts, such as noise, and displacement of residents and businesses.
4. Concern from residents located below or adjacent to alignment options.
5. Questions about third party funding and the differences between alternatives that provide shorter and longer tunnel options.
6. Discussion on balancing access and station location with negative impacts on existing neighborhood (i.e. the Yancy/Andover station alternative preserves most of the existing Delridge neighborhood, but provides limited access to the station for users)
