Q12 Meeting Themes / What we heard: Record some of what you heard at the event. Be clear about whether the theme is an individual point of view or an observation / summary from a group. Limit this to 5-7 themes. For more guidance, check out these tips on how to summarize.

- City of Seattle and Sound Transit presented together on the Sound Transit 3 project at the Seattle Youth Commission.
- About a quarter of the commissioners had heard about the ST3 project before.
- ST presented on high level timeline, project, and phases of work. City of Seattle talked about our guiding principles, ways community can shape, and ST & City roles in the project.
- Question about if the pedestrian corridors would be underground and if so, exploring the connections.

Themes from Question and Answer/Feedback from Participants

- Feedback on guiding principals-
 - o Vibrant Communities- how are we thinking about developer speculation in the areas where future stations will be built? What about displacement and affordable housing? Who determines and can influence how AMI is calculated?
 - City/ST talked about programs like community preference and ST's surplus property. City will follow up on more examples of the anti-displacement work taking place now.
 - o Construction mitigation- question about how this is done and construction impact
 - 1-976- how does this effect the project?
 - Excitement around the project and potential connections
 - Safety for people using the future stations
 - Make sure the stations are more inviting with light and art
 - Fare enforcement
 - o Sound Transit will follow up
 - Osbaldo, the Youth Commission City staffer, asked about next steps—ST/City would like to connect again and talk about other opportunities to engage youth in ST3 planning work.
