Re: 2020OPA-0355

CERTIFICATION:

OIG has reviewed the Investigation for Case Number 2020OPA-0355. The investigation is partially certified as objective.

SPD Employee #6158 (#6158) was identified through the investigation as the person who may have made the comments which were the basis of the allegations presented by the Complainant, however, this employee was not listed as an NE. Instead, the report listed an Unknown Employee and had #6158 listed as a WE. There is no documentation or rationale provided in the ROI as to why #6158 was not listed as an NE.

Because of the omission of listing #6158 as an NE and the subsequent missed allegations against the same employee OIG will not certify the investigation as thorough or timely.

Respectfully,

A handwritten signature in blue ink that reads "Anthony Finnell".
