Re: Partial Certification Memo for 2020OPA-0639

Partial Certification Memo:

I have reviewed the investigation for 2020OPA-0639, and I certify the investigation as thorough and objective. However, the case was sent to OIG after working hours the day of the 180 day deadline for the case, preventing our team from conducting the review within the required 180 day period. Additionally, the Investigator Activity Log contains a three month gap, from February to May 2022, in which there is no documented investigative activity. For these reasons, OIG cannot certify the investigation as timely.

Sincerely,

Payton Schenck
