Introduction

The Office of Planning & Community Development produces a Neighborhood Snapshot for each of the 53 Community Reporting Areas in Seattle. We also produce a District Snapshot for each of the seven Council Districts in the city. Each of these areas has both a graphic-rich version of the Snapshot and an expanded, accessible version of the Snapshot. The Snapshots for Community Reporting Areas are available online at [Neighborhood Snapshots](#), while the Snapshots for Council Districts are online at [Council District Snapshots](#).

This document is the expanded, accessible version of the Snapshot for Central Area/Squire Park. We designed the accessible version to respond to guidelines for making information on the Web accessible to help meet requirements of the Americans with Disabilities Act (ADA). Like the graphic-rich version, this version includes data for both the Community Reporting Area and Seattle to enable users to understand this area in context of the city as a whole. *This version additionally provides comparison data for King County, Washington state, and the United States.* This document presents the Snapshot data in two sections.

- **The first section uses tables to present most of the data in the Snapshot.** We recommend that people using a screen reader skip to the narrative section described and bookmarked below.
- **The second section uses narrative to present the data in the Snapshot tables** to help make the information easier to understand with use of a screen reader. Click on the [Narrative Section bookmark](#) to skip to this section. If you are using an NVDA screen reader, visit [NVDA Keyboard Shortcuts](#) for documentation of keyboard commands. For additional assistance, call the Office of Planning and Community Development at 206-386-1010 or email opcd@seattle.gov.

Figure 1 Maps of the Community Reporting Area and Seattle

The map on the right identifies this Community Reporting Area's location within Seattle as well as showing boundaries of the 53 [Community Reporting Areas](#) and seven [Council Districts](#) in the city.

A narrative description of the boundaries shown in this map of the Central Area/Squire Park Community Reporting Area is provided in the Area Description section of the document.

Narrative

Area Description

Figure 1 provides a pair of small maps, with the map on the left showing the boundaries of the Community Reporting Area and the map on the right showing its location within Seattle. The following narrative describes the Community Reporting Area in more detail.

The Central Area/Squire Park Community Reporting Area is mainly bounded by 15th Avenue to the west, Olive Way to the northeast, Yesler Way to the south, and 31st Avenue to the east. The northern boundary mainly consists of East Denny Way, transitioning along 23rd Avenue East to East Roy Street, and includes a small portion of East Madison Street below Washington Park. The Community Reporting Area includes the Squire Park and Central Area residential neighborhoods and commercial corridors along Cherry and Yesler, and hillside areas rising toward Capitol Hill, and contains five King County census tracts: 77, 79.01, 79.02, 87, and 88.

Note: This is a general description of the Community Reporting Area and is intended to provide an overview. It may not capture every boundary detail or feature.

Supplemental Information

About the Neighborhood and Council District Snapshots

The Office of Planning and Community Development produces and periodically updates the Snapshots for all **53 Community Reporting Areas** and **seven Council Districts**. The Snapshots provide basic data about the population and demographic characteristics in each area and include comparison data for broader geographies.

Community Reporting Areas are combinations of census tracts used by the City to summarize neighborhood-level data published by the U.S. Census Bureau. Because they are based on census geographies, Community Reporting Areas may not match local ideas of neighborhood boundaries. If a Snapshot does not show enough of the area you're interested in, please look at Snapshots for adjoining areas.

The City Council consists of one representative for each district plus two citywide Councilmembers representing the entire city. Information about Council Districts is available on the [Find Your Council District webpage](#).

You can find links to both sets of Snapshots as well as more detailed data resources on our [Population and Demographics Neighborhoods webpage](#).

About the Data

The population size and growth statistics in the Snapshots come from the Washington State Office of Financial Management (OFM) and U.S. Census Bureau's decennial census. At the city-level these statistics are from OFM's April 1 intercensal estimates for 2010-2019 and April 1 official estimates for 2020-2025, while the statistics for other geographies in Washington are based on OFM's annual April 1 [Small Area Estimates](#).

Unless otherwise stated, data on population and household characteristics are from the [American Community Survey](#) 2024 5-Year Estimates published by the U.S. Census Bureau. The list of neighborhood languages is based on a combination of data from the American Community Survey and Seattle Public Schools' Home Language Survey. Five years of American Community Survey data are pooled for estimates at a neighborhood level. Even then, margins of error for American Community Survey estimates can be substantial. Some characteristics in the Snapshots are for a subset of the population.

A document with technical notes about the Snapshot data accompanies the Snapshots online. All the data in these Snapshots can be found on the [Seattle GeoData Open Data Portal](#).
