Squire Park	$27,337	60.7
Thistle	$49,772	83.5
Thomas Street Gardens	$47,063	27.7

Cartography by Matt Dressler
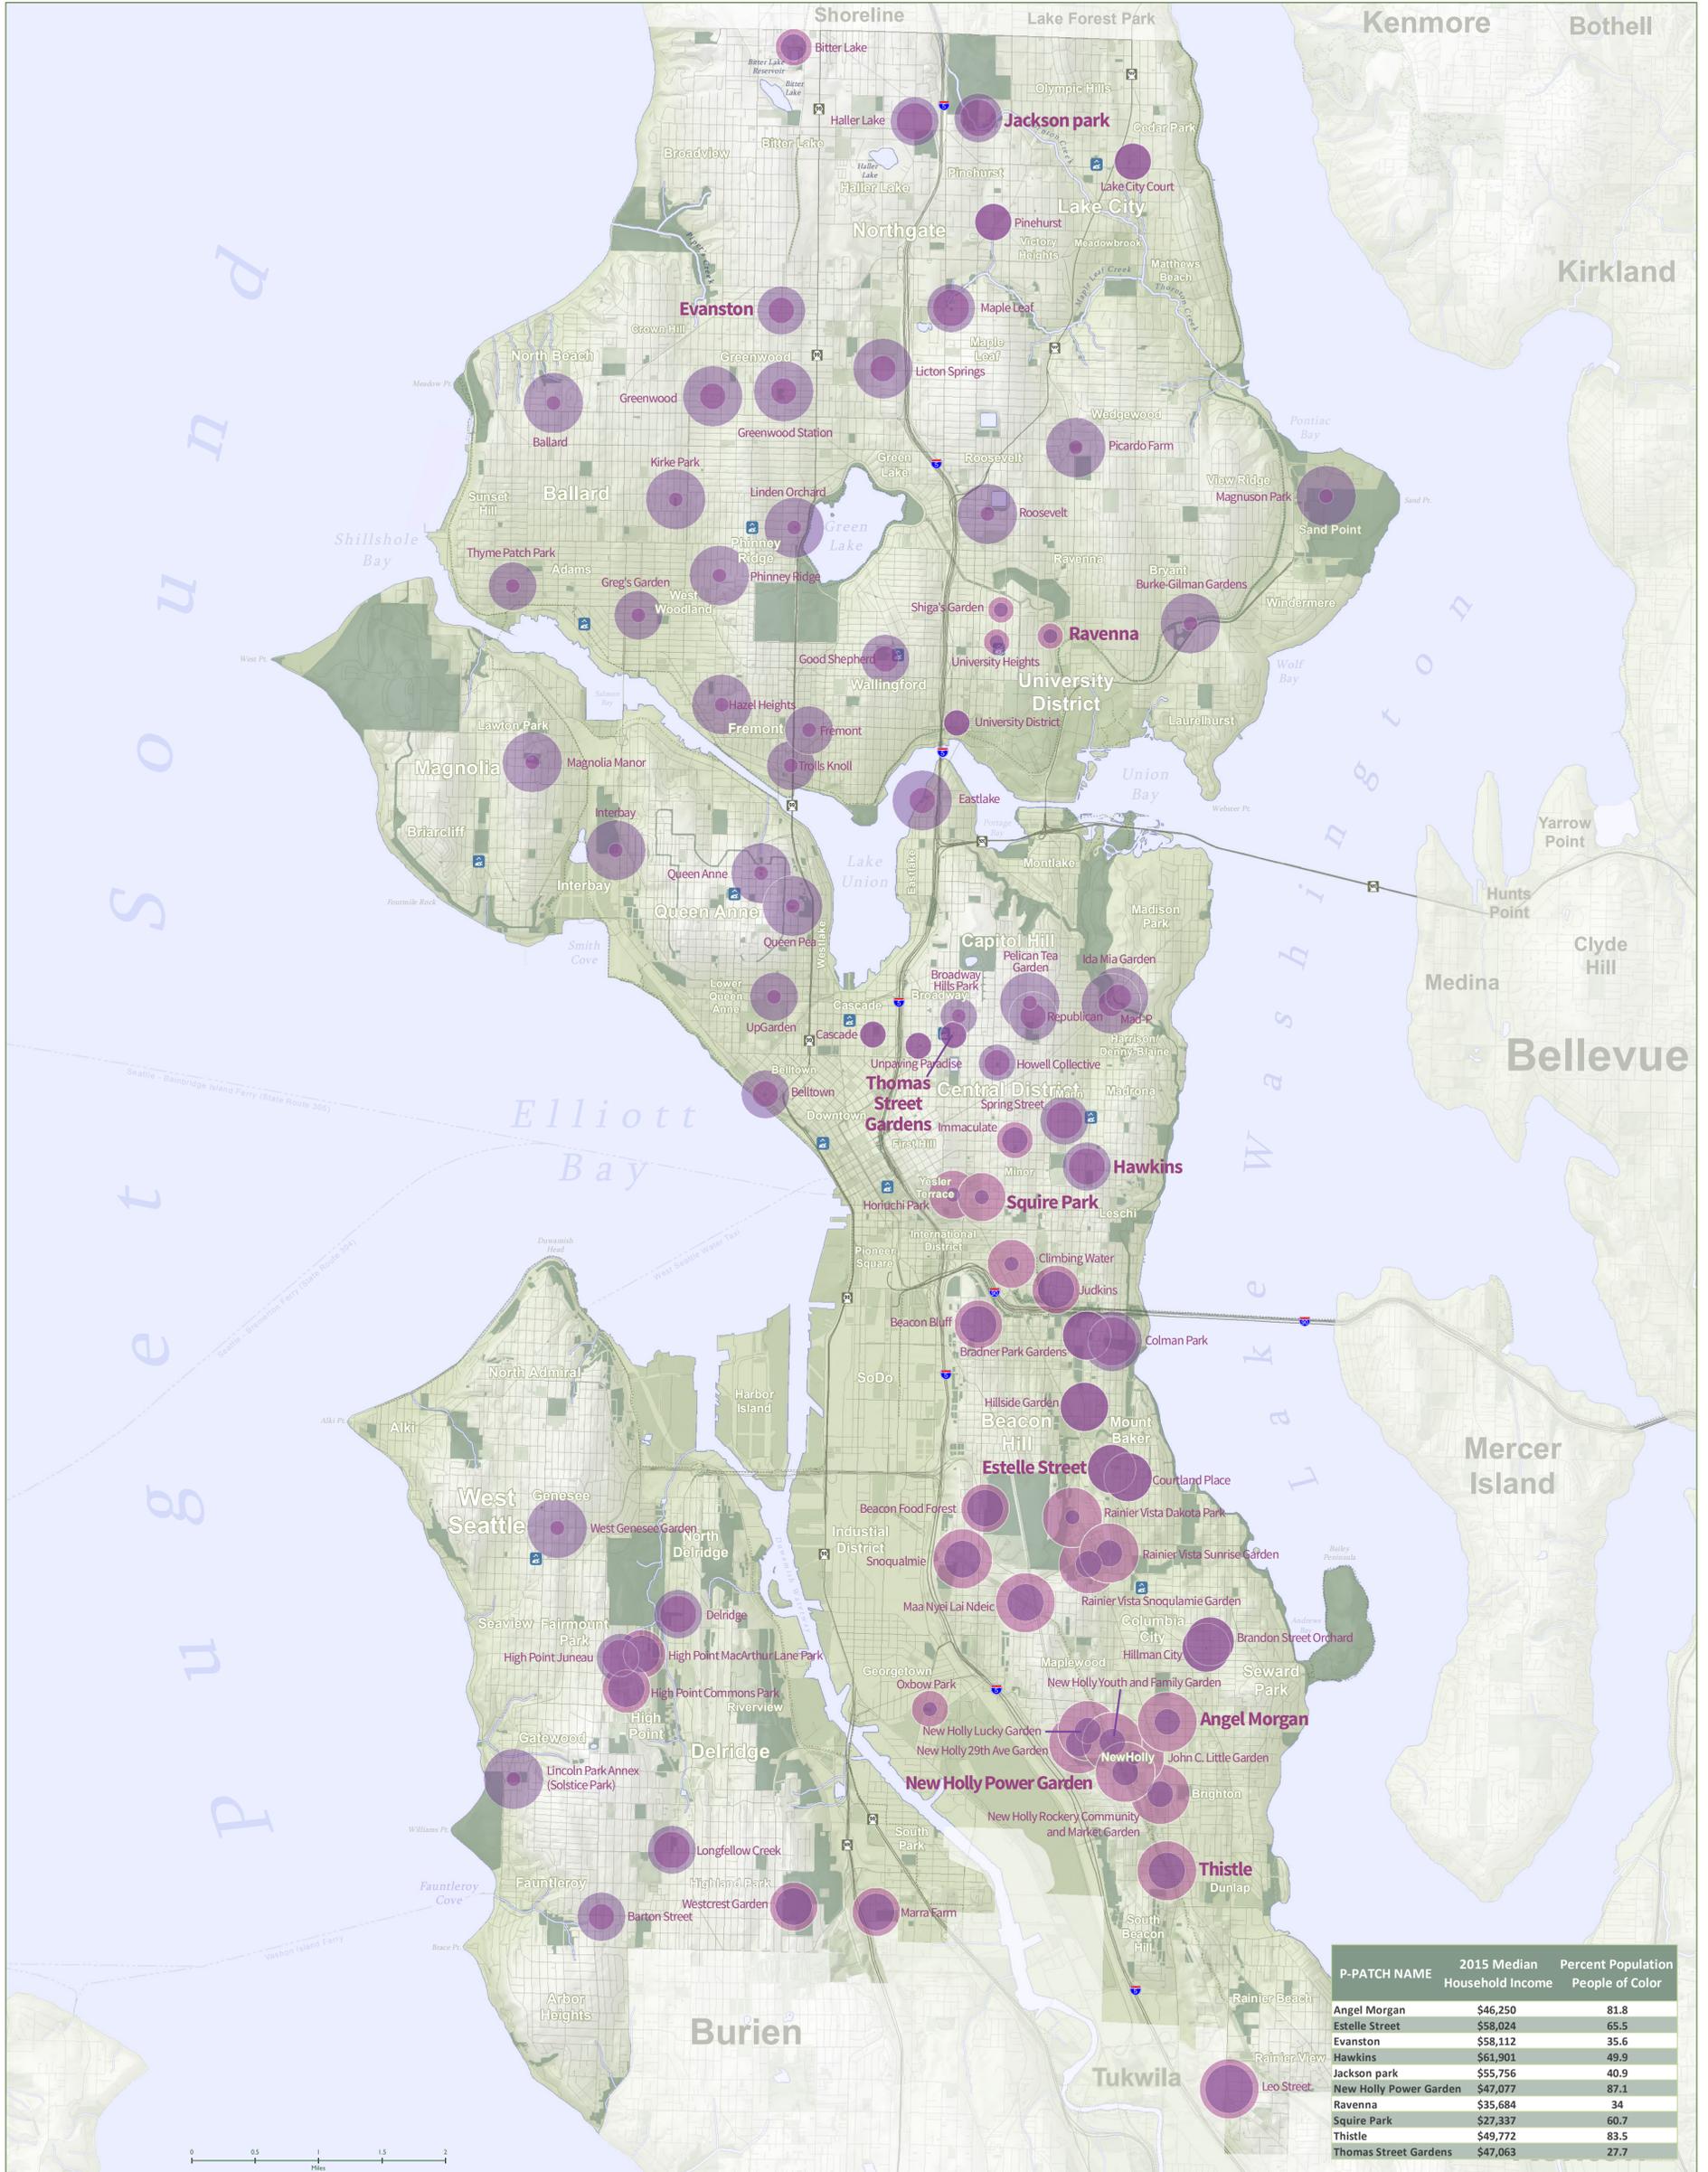

This program is intended to satisfy the Park District Investment Initiative 2.6: Fund the renewal of existing P-Patch gardens, update aging garden infrastructure, increase accessibility, and expand essential services. This initiative fosters community building and recognizes both the importance of P-Patches as community spaces and the support needed to sustain them for everyone, including underserved and underrepresented communities.

Note: Demographic calculations based on multiple U.S Census Bureau American Community Survey (ACS) datasets and a proprietary algorithm of the Environmental Systems Research Institute (ESRI). The calculations are considered accurate for the year 2015. Demographic calculations for each P-Patch are based on "Neighborhood" areas which vary among P-Patches and are based on the total number of garden plots available to residents at each P-Patch.
