

# Amy Yee Tennis Center Racquet Stringing Menu

## Synthetic Gut

Solid core nylon strings deliver all-around playability for good value

- Syn Gut 16g (colors available black, white, blue, green) \$35

## Multifilament Synthetic

Arm friendly strings that will give you extra comfort and power

- Dunlop Iconic Speed 16g \$45
  - This string is arm-friendly with lots of power. It has a smooth nylon coating, which give more spin potential, and is a good choice for hybrid stringing.
- Dunlop Silk Pro 16g \$40
  - Great choice for players looking for more comfort and touch. A little thicker than a regular 16g string, for added durability
- Laserfibre Extreme 16g \$40
  - Solid core string with a soft multifilament wrap. Good option for players looking for more durability without switching to polyester or also great for hybrid stringing

## Polyester

These strings offer excellent durability and a firm feel. They are a great fit for hard hitting, chronic string breakers

- Laserfibre GT 16g \$45
  - Grooved Technology design increases spin potential while still allowing enhanced snap-back, offering a good combination of durability and playability
- Laserfibre Native Tour 17g \$45
  - A softer playing polyester option that offers a bit more power and comfort than other strings in this family
- Laserfibre Smooth 16/17g \$40
  - Ultimate co-poly formula for laser accuracy and exceptional feel. Firm blend Premium Grade Poly construction for outstanding durability and snap-back.
- Laserfibre Edge 17g \$40
  - An ultra-responsive co-poly that's ideal for big hitters in search of heavy spin and great control.

## Regripping Services

- Replacement Grip \$12/installed
  - Base layer of your grip- Provides cushion and traction.
- Overgrip \$6/installed or 3x for \$8
  - Protects the base grip. Customize the look and feel of your grip.

Hybrid stringing available. Prices include string, labor and sales tax. Labor only price (bring your own string) is \$30
