YOU'RE INVITED!
**N 34th St Mobility
Improvements Project
Drop-In Session**

Tell us what you think

May 2019

Seattle
Department of
Transportation

In 2017, we launched a collaborative process to review street conditions along N 34th St with the goal of improving bicycle safety while preserving freight access.

We developed a proposed street design concept based on community input, citywide modal plan recommendations, and the results of our traffic modeling to be built as soon as 2020.

We're in the design phase and invite you to stop by our drop-in session to see the current design for N 34th St.

This design would:

- add protected bike lanes between Fremont Ave W and Stone Way N
- maintain parking
- update intersection design at Stone Way N and Fremont Ave N

Please stop by any time during the drop-in to learn about project progress, review materials, talk with project staff, and share your feedback. Thank you.
