

# GREENWAY DESIGN ELEMENTS

## Slower Speeds and Stop Signs

- Calm traffic entering and crossing the greenway
- Drivers are better able to stop and prevent collisions

## Safer Crossings at Busy Streets

- Easier for seniors and children to cross
- Make motorists aware of people walking and biking

## Speed Humps

- Slow motorists and people riding bikes
- Reduce cut-through traffic

## Neighborhood Activation

- Promote and activate public spaces
- Provide opportunity for greenery, parklets, and public spaces outside your door

## Wayfinding

- Identify the street as a Neighborhood Greenway so people know what to expect
- Point the way to neighborhood destinations like parks, businesses, and other greenways

## Spot Repairs of Streets and Sidewalks

- Safer for you and your family to walk and ride bikes
- Help people in wheelchairs or with strollers
