E Harrison St Traffic Calming

PROJECT OVERVIEW

We're going to calm traffic on a residential street in the Madison Valley and Denny-Blaine area this summer. We'll use speed humps and traffic control signs to keep vehicle speeds safe and encourage people to walk and bike.

THE ROUTE

The new traffic calming will be on a segment of the Lake Washington Loop on E Harrison St from 29th Ave E to Lake Washington Blvd E.

TREE PRUNING

Before the traffic calming improvements are built, we'll need to prune vegetation and trees to make sure street signs are visible, the sidewalk area is clear for people walking, and to allow large equipment through without impacting the trees.

We've sent notices to the individual homes that have trees that need pruning with specific instructions.

CONSTRUCTION WORK

- minor sidewalk repairs and pothole-filling
- tree and vegetation trimming
- asphalt speed hump construction of about 1 per block, depending on block length and slope
- intersection traffic control, including new stop signs with parking setbacks
