

Our Vision, Mission, Values, & Goals

Seattle is a thriving equitable community powered by dependable transportation. We're on a mission to deliver a transportation system that provides safe and affordable access to places and opportunities.

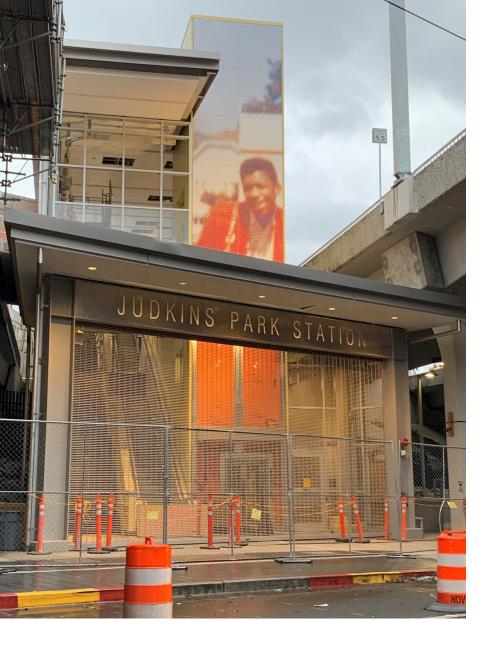

Presentation Outline

- 1. Background
- 2. Project Goals
- 3. Parking Study and Recommendations
- 4. Curbspace Management Tools
- 5. Proposal
- 6. Planning Process and Next Steps
- 7. Questions and Discussion

Background:

- Judkins Park Light Rail Station opening in 2025
- East Link Record of Decision (ROD) requires Sound Transit (ST) to evaluate parking impacts within ¼ mile of the station and "implement appropriate mitigation measures, if necessary."
- Of all East Link stations, Judkins Park likely to generate most "hide and ride" impacts
- ST and SDOT working together with stakeholders to plan parking changes

Project Goals:

- Reduce all-day light rail commuter parking on neighborhood streets around the future Judkins Park Light Rail Station
- Prioritize parking for residents and provide short-term parking options for businesses, organizations, schools, and parks
- Encourage walking, biking, and use of public transportation to get to and from the new light rail station

Parking Study

- Study captures pre-Station opening conditions in Near Station Study Area (1/4 mile) and Broader Neighborhood Area (1/2 mile)
- Occupancy counts performed in May 2022 on either Tuesday or Thursday:
 - 4 AM
 - 10 AM
 - 2 PM
 - 8 PM
- Occupancy counts also performed on Saturday:
 - 10 AM
 - 2 PM

Washington S King St S King St S Weller S S Lane St S Dearborn S Medical Centers Thurgood Marshall ES Judkins Park Station S College St Passenger or General Load Zone S Bayview St S Bayview St Disabled Permit Parking No Parking During Specified Hours Time Limited

Existing Restrictions

- 91% of street parking in Near Station Study Area is unrestricted
- 95% in Broader Neighborhood is unrestricted
- time-limited parking on 23rd and loading areas near schools

S Jackson St S King St S King St S Weller St S Lane St S Dearborn St Thurgood Marshall ES S Walker St S College St S Bavview St S Bayview St llegal Parking Activity

4 AM - Weekday

- Most vehicles present at 4am belong to residents or their guests
- Orange lines = greater than 85% occupancy
- Near Station Study Area: 51% overall occupancy rate
- Broader Neighborhood Study Area: 54% overall occupancy rate

S Jackson St S King St S King St S Weller St S Lane St S Dearborn St S Dearborn St S Judkins S Thurgood Marshall ES Judkins Park Station S Walker St S College St Greater Than 85% Occupancy Temporary No Parking S Bayview St S Bayview St 60% to 85% Occupancy llegal Parking Activity (Parking occurring in prohibited area)

2 PM - Weekday

- Near Station Study Area: 52% overall occupancy rate
- Broader Neighborhood Study Area: 48% overall occupancy rate

S King St S King St S Weller St S Lane St S Dearborn St S Dearborn St S Judkins Thurgood Marshall ES Judkins Park Station S Plum St S Walker St S College St Greater Than 85% Occupancy Temporary No Parking S Bayview St S Bayview St 60% to 85% Occupancy No Parking Supply (Parking occurring in prohibited area)

8 PM - Weekday

- Near Station Study Area: 49% overall occupancy rate
- Broader Neighborhood Study Area: 49% overall occupancy rate

Study Recommendations:

- "Parking restrictions that have time limits...do discourage hide-and-ride parking..."
- RPZ for residential blocks within 1/4 mile

• 2 or 4-hour time limits next to non-residential uses

 Engage with businesses and organizations to determine whether new load zones are needed and retain existing loading zones adjacent to schools

Curbspace Management Tools:

RESTRICTED PARKING ZONE (RPZ)

If your vehicle has an RPZ permit, you may park along signed RPZ streets for up to 72 hours. If not, you are limited to the time posted.

TIME-LIMITED PARKING

Park up to the posted time limit. You must then move your vehicle off the block (both sides of the street): for example, to the next block or around the corner.

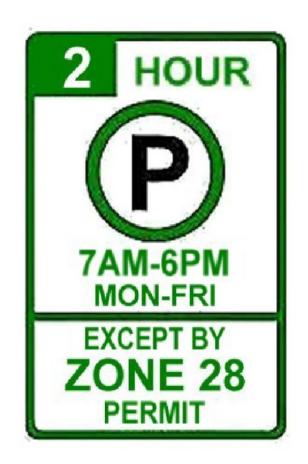

LOAD AND UNLOAD

All vehicles may load/unload during posted hours. (Curb color: yellow.)

How do RPZs work?

- Permits exempt residents from posted RPZ restrictions
- Most other vehicles subject to 2-hour time limit
- Up to 4 resident permits per household, vehicle must be registered to RPZeligible address
- 1 guest permit per household
- •\$95/permit for two years
- Income eligible \$10 permit available

RPZs for Hide-and-Ride Mitigation

Can:

 Remove ability for vehicles without permits to park all day on weekdays on residential streets, discouraging commuters

Cannot:

- Provide guaranteed parking for residents
- Address existing / future resident parking congestion
- Manage residential parking demand

Proposal:

RPZs:

- 2 new zones
- RPZ signs next to residential addresses within proposed areas
- 2 hours from 7 AM to 6 PM, Monday-Friday, unless you have a permit

Time-Limited Parking:

• 2- or 4-hour parking limits during the daytime next to non-residential uses, such as businesses, churches, and parks

Load Zones:

New load zones where they are needed

Survey:

Online survey described proposal and sought key information:

- Support for project goals
- Resident vehicle ownership/ parking practices
- Resident support for RPZs
- Non-resident travel frequency transportation modes
- Support for adding time-limited parking to reduce all day light rail commuter parking
- Areas where load zones are needed

Survey also included open fields for general comments.

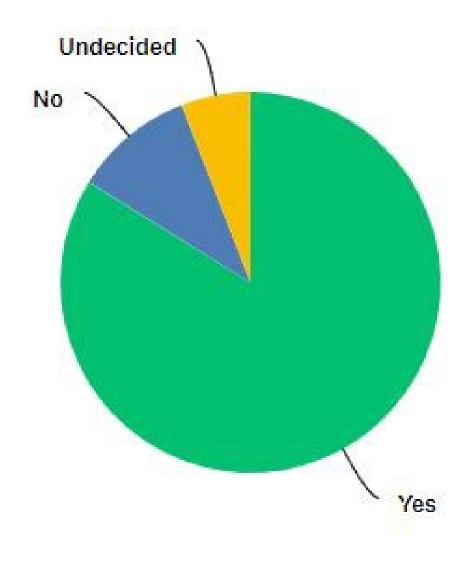

Survey Response:

Survey opened February 16th and closed March 25

585 responses (75% of respondents were residents)

84% of survey respondents agree with project goals

Planning Process and Next Steps:

- 1. Early engagement with individual organizations
- 2. Initial proposal mailer with survey link (mailed 2/16/2024)
- 3. Online survey and comments analysis
- 4. Revise initial proposal
- 5. Share revised proposal
- 6. Public hearing (Summer-Fall 2024)
- 7. Finalize plan
- 8. Implementation (prior to station opening)
