

NE 43rd St Improvements Project

As soon as August 17th, construction will begin on the NE 43rd St Improvements Project. This project will prioritize people who walk, bike and take transit while still allowing those who drive to travel westbound on the corridor along NE 43rd St from 15th Ave NE to University Way NE. Changes from this project will include full roadway reconstruction with wider sidewalks, new bike lanes, channelization changes and more. Construction is expected to begin on the north side of 43rd, working from east to west. The entire project is anticipated to be completed in Spring 2021.

Construction impacts will include:

- Typical work hours between 7 AM and 5 PM Monday through Friday
- Occasional weekend work may be required
- Local access only on your street
- Detours for intersection closures
- Temporary parking restrictions
- Temporary pedestrian and bike detours around the work zone and staging area
- Temporary driveway restrictions. We'll notify you individually if you'll be impacted.
- Access to businesses and homes will be maintained at all times
- Typical construction noise, dust, and vibrations

To receive construction updates, please sign up for our listserv through our project website: www.seattle.gov/transportation/43rdImprovements

Transit only one-way westbound curbless design for University Way NE to Brooklyn Ave NE looking west
