

# Rainier View Draft Home Zone

## What is a Home Zone?

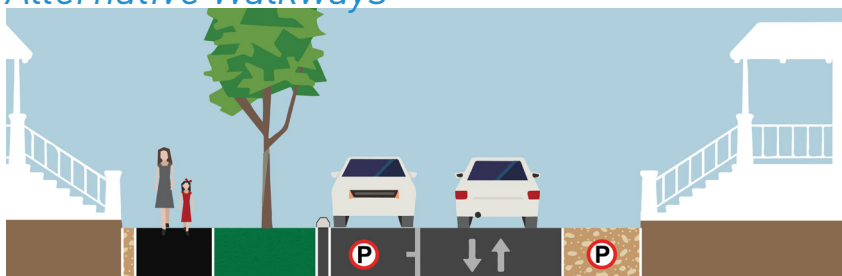

The goal of a Home Zone is to make it easier to walk and improve overall quality of life in a neighborhood. A Home Zone prioritizes projects co-created with the community. The Rainier View Home Zone began in 2021 with a series of community walks.

Over the last year, we worked with the Rainier View steering committee to create the Draft Home Zone. The biggest concerns were missing sidewalks, speeding, and a desire for more open space. We are proposing two different designs to improve walking in the Rainier View Neighborhood. These are Alternative Walkways and Dedicated Pedestrian Space.

### Existing Street

### Alternative Walkways

### Dedicated Pedestrian Space

## Funding

Through collaboration with other programs including Safe Routes to School and the Pedestrian Master Plan, there is over \$2 million dollars for improvements to Rainier View. In addition, the Seattle City Council set aside money for pedestrian and traffic safety improvements in the Rainier Valley and the Rainier View Home Zone received nearly \$500,000 dollars pedestrian improvements.

There is not enough money to fund all projects identified as a priority. These projects may be constructed in the future as funds become available. The unfunded projects can be viewed on the Home Zone website here: <https://www.seattle.gov/transportation/projects-and-programs/programs/home-zone-program/rainier-view>
