Greenwood Sidewalks Sidewalk construction begins as soon as March 28

CONSTRUCTION NOTICE

OVERVIEW

As soon as *Monday, March 28 crews will begin installing new sidewalks along both sides of Greenwood Ave N between N 117th St and N 125th St. These new sidewalks are the first phase of our sidewalk project along Greenwood Ave N that will complete the critical gap in pedestrian infrastructure between N 117th St and N 130th St by 2023.

Included with sidewalk construction, we will be performing spot natural drainage treatments, which will enhance water quality and drainage. These improvements will help connect residents to transit and community destinations while working to achieve Seattle's Vision Zero goal to end all traffic deaths and serious injuries by 2030.

SCHEDULE AND IMPACTS

Construction will begin on the east side of Greenwood Ave N at N 125th St and will progress southward to 117th St. Once the east side is complete, crews will switch over to the west side and work their way back north to 125th. Normal working hours will occur Monday through Friday, 7 AM to 5 PM, with the potential for nighttime and weekend work as necessary. This work is the first phase in completing the sidewalk network and will be continued through an upcoming Safe Routes to School project in 2023. Construction is expected to last 6-8 months and is weather dependent. Streets in construction will be allowed local access only and intersections at the end of each block may be closed with detours provided. Parking will be temporarily restricted, and crews will place "No Parking" signs 72 hours in advance. Access to businesses and homes will be maintained at all times during this work, but driveway access will be temporarily restricted; we'll notify you individually ahead of time of potential impacts.

To stay up to date with project progress, please visit our website at www.seattle.gov/transportation/greenwoods sidewalks

PEDESTRIAN IMPROVEMENTS ALONG GREENWOOD AVE N

WHAT TO EXPECT DURING CONSTRUCTION

- Sidewalk and curb ramp construction
- Traffic lanes and sidewalks may be reduced or detoured where necessary
- Typical work hours between 7 AM and 5 PM Monday through Friday
- Local access only on your street
- Detours for intersection closures
- Temporary parking restrictions
- Temporary pedestrian and bike detours around the work zone and staging area
- Access to businesses and homes will be maintained at all times
- Typical construction noise, dust, and vibrations
- Driveways may be temporarily blocked. Businesses and residents will be notified of any driveway closures at least 48 hours in advance.
- SDOT is doing some driveway work as part of this project. If your driveway is affected, SDOT has contacted you.

Thank you for your patience during construction!

*There is an ongoing general strike of concrete drivers and concrete plant workers in the Seattle area that involves companies that supply us with concrete for our many active construction projects. This project, and several others, have had to pause concrete paving work until the strike is resolved. This is a challenge and SDOT supports a fair resolution among the parties. In the near term, we're continuing other project work at the site and behind the scenes and will be sure to share more about the strike outcome and any impacts to this project as information becomes available. SDOT remains hopeful that this issue will be resolved soon and that we can continue making even more progress delivering projects for our Seattle communities.
