

STAY HEALTHY STREET

Street Mural

We're installing art on the street created by Seattle artist, Romel Belleza. The street mural will be at the intersection of 32nd Ave NE and NE 140th St. The art honors Native American culture - past and present and welcomes people to the Little Brook neighborhood.

Lake City Collective, the Seattle Department of Transportation, and the artist will hold an event on the Stay Healthy Street outside Little Brook Park after the mural installation has been completed to celebrate the art and learn more about Native American culture. Look soon for a poster with more info. We'll have free food and giveaways. All are welcome!
