## COLUMBIA ST 2-WAY TRANSIT CORRIDOR

As soon as December 11, we'll begin demolition and reconstruction work on Columbia St from 1st Ave to 3rd Ave to prepare it for conversion from a 1-way street to a 2-way transit pathway. The first work zone will be on the north side of Columbia St between 1st Ave and 2nd Ave.

Project features include new concrete paving to support higher-weight bus traffic, changes to curblines, signal updates, and a new water main—all to be completed by spring 2018.

We plan to keep at least 2 lanes of Columbia St open during construction, and will communicate any weekend full closures ahead of time. Seattle Public Utilities will provide advance notice of temporary water shutdowns.

The full conversion of Columbia St to a 2-way transit pathway in a few years will move thousands of people a day to and from downtown Seattle after the Alaskan Way Viaduct is replaced.
