Notes:

*Projects indicated as 'Various' involve work on multiple facilities. Costs for these projects will be included in regional or subregional cost pools to the extent that work is done on a regional or subregional facility.

All amounts are in inflated dollars. Total project costs are shown for those projects where costs will be allocated when project goes online. * Assume annual closing for the sake of rate calculation.

New Supply Total																
Grand Total	\$16,832,549															

Notes:

*Projects indicated as 'Various' involve work on multiple facilities. Costs for these projects will be included in regional or subregional cost pools to the extent that work is done on a regional or subregional facility.

All amounts are in inflated dollars. Total project costs are shown for those projects where costs will be allocated when project goes online. * Assume annual closing for the sake of rate calculation.
