Seattle Department of Transportation	PW#2019-090	Terminal 5 Quiet Zone	\$2,107,000	Q3 2020	Jason Fialkoff 684-4617	The work includes spot civil work, new bike path, application of pavement markings, new traffic signals and work adjacent to rail lines at W Marginal Way SW (Chelan Ave SW to SW Marginal Pl)	X		X	X				X	X		X					X		X
Seattle Department of Transportation	PW#2020-007	Sand Point Way NE - NE 70th St to NE 77th St	\$2,364,407	Currently Under Review Prior to Advertisement	Khoa Truong 256-5478	This project will reduce collisions and speeds on Sand Point Way NE via enhanced pedestrian crossings along the corridor from NE 70th Street to NE 77th Street including new concrete sidewalks, a redesign of the NE 74th and Sand Point Way NE intersection with an upgraded signal to reduce collisions and improve pedestrian crossings, ADA-compliant curb ramps, and installation of code-compliant drainage facilities.	X	X	X	X				X	X							X		X
Seattle Department of Transportation	PW#2020-017	Melrose Promenade	\$2,100,000	Q3 2020	MariLyn Yim 684-3190	Construct a neighborhood greenway from Roy Street to University Street with two blocks of protected bicycle lane from Denny to Pine. Raised crosswalks at block ends from Pine to Pike. Sidewalk repairs, curb ramps where not ADA compliant, concrete panel replacements, signal adjustments. Realign NB I-5 Olive Way on-ramp.	X	X	X	X			X	X	X		X					X		X
Seattle Department of Transportation	PW#2020-041	East Marginal Way Corridor Improvements – Phase 1	\$5,300,000	Q4 2020	Megan Hoyt 684-5127	Construct a protected bike lane on East Marginal Way S between S Atlantic St. and S Spokane St. Rebuild the existing signal at S Hanford St. with potential to adjust existing railroad tracks. Construct a new traffic signal at S Horton St. and adjust other signals as needed. Primary construction scope includes excavation, concrete paving, asphalt paving, pedestrian lighting, conduit, new signal poles, electrical work, landscaping, signs and markings.	X		X	X				X	X		X					X		X
Seattle Department of Transportation	PW#2020-051	SW Andover Pedestrian Bridge Seismic Retrofit	\$295,000	Q3 2020	Vanessa Bacurin 684-5167	Seismic improvements to the existing pedestrian bridge spanning the Fauntleroy freeway including but not limited to clearing and grubbing, structural excavation, concrete demolition, concrete and form work, placement of micro-piles and site restoration.	X		X	X			X	X	X									X
Seattle Department of Transportation	PW#2020-057	Transit Spot Improvements-Package 2	\$1,610,126	Q4 2020	Bill Clark 684-8324	The project is transit, ped & bike safety improvements. As part of the project there will be ADA curb ramp installation, sidewalk & crossing improvements, transit stop safety and electrical improvements, minor paving and drainage at Lake City Way NE at NE 125th St, both 400 feet north and south of the intersection, and at Gilman Ave W between W Emerson Pl and W Fort St. Work includes Clearing and grubbing, sawcutting, concrete pavement removal, asphalt milling, curb removal and restoration, concrete sidewalk demolition and replacement, curb ramp demolition and restoration, new and adjustment of existing handholes, channelization and signing revisions, trenching, conduits and foundations, ped lighting, transit stop & PBL improvements. Department	Project No.	Project Name	Engineer's Estimate	Target Bid Date	Contact Name	Project Description	Projected scopes of work listed below are informational estimates only and do not represent an exhaustive or final list.																			
							Flagging, Traffic Control	Demolition, Remediation	Excavation, Grading, Site Work	Trucking	Carpentry	Finishes	Landscaping	Concrete	Concrete - Roadway	Electrical - Facilities	Electrical - Utilities	Mechanical, HVAC, Plumbing	Park Development	Shoring, Dewatering	Channelization, Signage, Wayfinding	Shoreline, Marine Construction	Fencing, Site Security			
Seattle Department of Transportation	PW#2020-076	2021 AAC N 50th St and Stone Way N	\$2,724,085	Q4 2020	Bill Clark 684-8324	The project is a roadway resurfacing project. The work will include channelization, signal/crossing (RRFB) and greenway improvements, clearing and grubbing, sawcutting, concrete pavement removal, asphalt milling, curb removal and restoration, concrete sidewalk demolition and replacement, ADA curb ramp demolition and restoration, channelization and signing revisions, transit stop improvements.	X	X	X	X			X	X	X								X		X	
Seattle Department of Transportation	PW#2020-078	2nd Avenue Extension Streetlight Infrastructure Replacement	\$1,450,000	Q3 2020	Patrick Donohue 402-1662	Replace failing streetlight infrastructure on both sides of the 2nd Avenue Extension ROW between Washington & Main Streets. Work calls for civil demolition as needed, new wiring in conduit, poles, foundation, LED fixtures and civil restoration including all required ADA improvements. Replacement of street lighting infrastructure, includes removal of existing 8 poles, fixtures, foundations and old conduit and wiring as necessary, installation of new poles, fixtures, and wiring in conduit, and full civil restoration of affected sidewalks and streets. Primary construction scopes: earthwork/trenching/directional boring, underground electrical and hardscape restoration.	X	X	X	X				X	X	X	X									X
Seattle Department of Transportation	PW#2020-079	Spokane Street Swing Bridge Controls Upgrade	\$910,000	Q3 2020	Joel Darnell 684-5065	This project will complete the control systems upgrade at the Spokane Street Swing Bridge by modification of existing control panels and installing new components including PLCs, HMI, and related systems contingent upon completion of new fiber communications installation to be performed under a separate construction contract.												X	X							
Seattle Department of Transportation	2020-088	City Center Gateway ITS - Denny Way ITS	\$7,334,830	Q2 2021	Joshua Shippy 256-5469	Construct an ITS corridor along Denny Way between Western Ave and Stewart St and traffic signal modifications including controller cabinet upgrades, 12" LED signal heads, countdown pedestrian signal heads, Accessible Pedestrian Signals (APS) pushbuttons, traffic signal detection, and system detection. The project also includes new Closed Circuit Television (CCTV) cameras, one new Dynamic Message Sign (DMS), and Americans with Disabilities Act (ADA) compliant curb ramps.	X	X	X	X				X	X									X		X
Seattle Public Utilities	PW#2019-028	Cathodic Protection Program 2019	\$2,000,000	Q3 2020	Andrew Karch 684-4643	Installation of cathodic protection elements on the Cedar River Pipe Lines including deep anode ground bed installations, distributed anodes, rectifier station power connections, test stations, and surface restoration at six separate sites: Federal Ave E (Site 96); 22nd Ave E (Site 95); 18th Ave S (Site 94); 20th Ave S (Site 93); Beacon Ave S (site 92); and S 134th St (Sites 91, 7W, & 7E).
