Chemical Waste		N
Fires	<p>Hi August,</p> <p>FYI We wanted to make sure you were aware there are ongoing campfires at this site and constituent wrote to the Mayor's Office about it.</p> <p>Dear Mayor, The air quality in South Magnolia has hit an all time low due to the stagnant air combined with the fires from the encampment under the west end and east ends of the Magnolia bridge. This is affecting the health of my family adversely and I am upset about it. There are a number of elderly people in our neighborhood that should also be protected from the smell of woodsmoke, the breathing difficulties and stinging eyes to name just a couple of the symptoms. Presumably there is a risk to our public infrastructure having open fires beneath the bridge. The encampment appears to have poor sanitation and has coincided with an increase in crime. CITY OF SEATTLE NAVIGATION TEAM ENCAMPMENT OUTREACH REPORT II

Date: March 14, 2017

Location: Underneath Ballard Bridge at Emerson Street

Activity: Encampment Closure

Report and Summary of Activities

There were 16 individuals (encampment residents) on location upon arrival. There were a total of 4 organizations providing supportive services to the encampment residents. Those organizations were:

1. Evergreen Treatment Services REACH Program
2. Seattle UGM – Outreach Team
3. Seattle UGM – HOPE Place Outreach Team
4. SPD – Navigation Team Unit

Seattle Fire was later called in to assist with a medical concern.

The following resources were provided:

1. Hot chocolate
2. Sandwiches
3. Water
4. Gloves

1 individual was transported to tent city

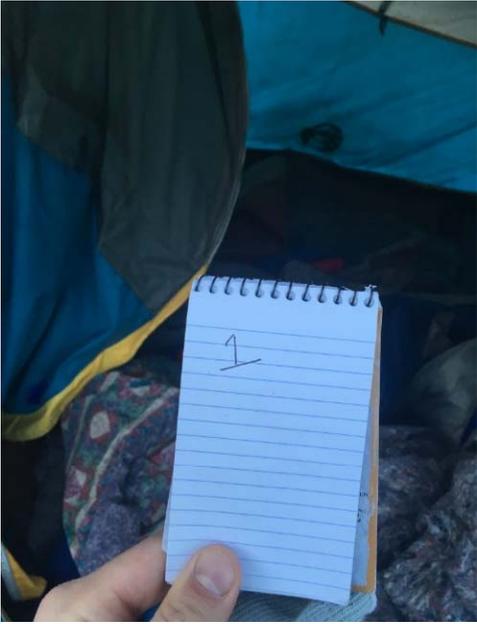

1 individual moved to a friend's home

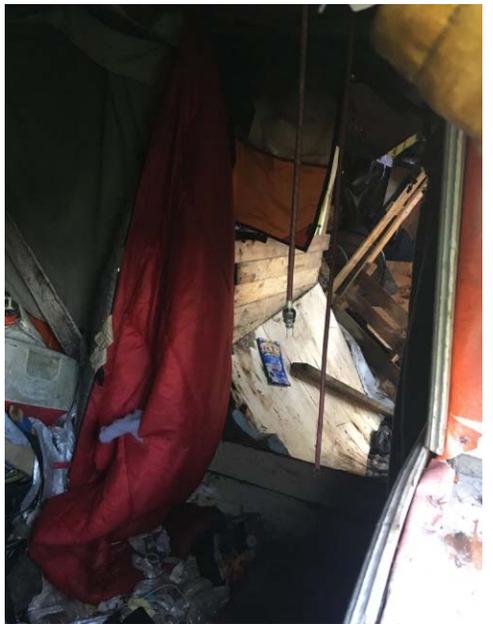

6 individuals were assisted in moving into emergency shelters

4 individuals outright declined services.

5 individuals are interested in immediate referrals to the sanctioned encampments (2 were transitioned to shelter & 1 to a friend's home).

Exhibit D: Clean Up

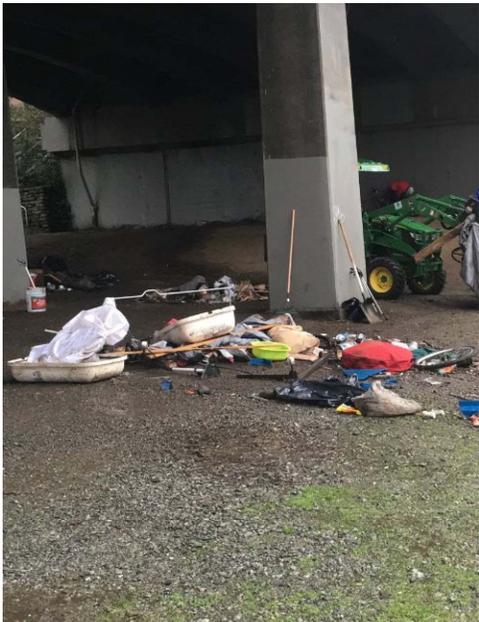

Exhibit E: Storage Information

Emerson Corridor

2-28-17

Site coordinator came back to my city truck and noticed two bags of clothes in the back of the truck. These bags were not in the truck at the start of the day and that were not given by a camper to store. Protesters on site started to video tape this site coordinator and ask questions about the bags and how they were going to be stored. The site coordinator followed protocol for found abandoned property and stored the bags and left a recovered property sign in all 3 locations that the truck was parked on site due to not knowing where bags were put in truck on site.

2 separate campers each stored personal belonging due to stating they are leaving the site tonight.

Storage

2/28/17

2 bikes

6 bins

3-14-17

Tent information-

#1- tent owner (Ricks) walked away from tent and nothing was stored due to damage, inside was wet with urine smell. Tent also had bottle of urine inside

#2 – was a large structure and nothing inside was stored due to being wet, full of garbage with urine and mold smell

Storage

3/14/17

9 bins

3 large items

*Site storage total

15 bins

2 bikes

3 large items
