The Landmarks Preservation Board has been designated by the Seattle City Council to review and approve certificates for changes to landmark buildings. Controls on landmarks vary depending on whether they are individually designated or located in one of three landmark districts (Columbia City, Fort Lawton and Harvard-Belmont) under the jurisdiction of the Landmarks Preservation Board. To assure that your submission has considered all the impacts to the landmark, or landmark district, contact Board staff. The Board staff can provide applicants with design guidelines, historic preservation references and information on other applicable regulations through the City's Historic Preservation Division, 684-0380.

1. **Description**

Describe the proposed work and any changes it will make to the landmark building or property. All items must be included in this application. (Attach additional pages if necessary.)

  - b. A description of the replacement structure or object.

7. If the proposal includes replacement, removal, or demolition of existing features, a survey of the existing conditions of the features being replaced, removed, or demolished.

### **Determination of Completeness**

The staff shall determine whether an application is complete and shall notify the applicant in writing within twenty-eight (28) days of the application being filed whether the application is complete or that the application is incomplete and what additional information is required before the application will be complete. Within fourteen (14) days of receiving the additional information, the staff shall notify the applicant in writing whether the application is now complete or what additional information is necessary. An application shall be deemed to be complete if the staff does not notify the applicant in writing by the deadlines in this section that the application is incomplete. A determination that the application is complete is not a determination that the application is vested.

The determination of completeness does not preclude the staff or the Board from requiring additional information during the review process if more information is needed to evaluate the application according to the standards in SMC 25.12 and in any rules adopted by the Board, or if the proposed work changes.

### **Preliminary Design**

An applicant may make a written request to submit an application for a Certificate of Approval for a preliminary design if the applicant waives in writing the deadline for a Board decision on the final design and any deadlines for decision on related permit application under review by the Department of Construction and Land Use. ***A written waiver must be included with this application.*** The staff may reject the request if it appears that approval of a preliminary design would not be an efficient use of staff or Board time and resources, or would not further the goals and objectives of SMC 25.12. To be complete, an application for preliminary design must include the information listed above on page one of this application and in Section 1. Description, Section 2a.- 2c., Section 3, and Section 6. *A Certificate of Approval that is granted for a preliminary design shall be conditioned upon subsequent submittal and Board approval of the final design, including all of the information listed above in subsection B, prior to issuance of permits for work affecting the landmark.*
