Yesler Terrace Planned Action Exhibit C to Ordinance: Tree Protection Plan

INTRODUCTION

[This tree protection plan has been updated to reflect conditions on the site, which have changed during the course of implementation of the planned action since this Exhibit C, originally dated July 25, 2012, was adopted by the City Council.](#)

In preparing the Yesler Terrace Environmental Impact Statement, Seattle Housing Authority and the City of Seattle conducted a thorough inventory and analysis of trees at the Yesler Terrace Planned Action Site (Planned Action Ordinance Exhibit A). The City has used this analysis, together with the redevelopment plan adopted by the Seattle Housing Authority Board of Commissioners, to develop a tree protection plan requiring protection of certain existing trees over the course of redevelopment at Yesler Terrace. [This analysis was required as a result of the FEIS and identified mitigation. The updates to the tree protection plan still satisfy the mitigation described in the FEIS.](#)

The inventory included an evaluation of health for each tree, and a determination of exceptional tree status, pursuant to Department of [Planning and Development's Construction and Inspections](#) Director's Rule [30-2015, or subsequent rule 16-2008](#). In addition to classification of each tree as an exceptional or non-exceptional tree, the inventory included consideration of a third category: "valuable trees" are non-exceptional trees that have preservation value, either as a result of their size and vigor, or because of their proximity to exceptional trees.

For each tree existing on the Planned Action Site as of January 1, 2012, this [revised](#) document either designates preservation during redevelopment or authorizes removal. In addition to the tree preservation requirements stated here, development at Yesler Terrace shall provide new trees and landscape features consistent with the Seattle Green Factor and street tree requirements in Chapter 23.75 of the Land Use Code. Land Use Code requirements and Street Improvement Permit conditions may require more trees than the preserved and replacement trees provided pursuant to this document.

REQUIREMENTS

[In applying this document SDCI shall be responsible for ~~to~~ trees shown on this tree protection plan that are on private property and not within a street-right-of-way within the boundaries of the Yesler Terrace Planned Action Site. It is the responsibility of the Seattle Housing Authority to report on required tree mitigation including providing information needed for SDCI to](#)

determine if the proposal meets the PAO requirements, which means the applicant must document it includes tree mitigation compliances within the PAO boundary, off-site citywide tree planting and/or payment in-lieu applicable to both Tier 1 and Tier 2 trees as required in the adopted Cooperative Agreement. Compliance with all tree mitigation requirements is to be reported after total build-out of the Planned Action. This reporting on behalf of SHA is not intended to be required as part of the permit review process or necessary in order for SHA to obtain grading, demolition, master use, or building permits. The annual report that SHA submits to the SDCI Director required by the Cooperative Agreement will satisfy the SHA's reporting requirement. By entering into the Cooperative Agreement SHA is committed to the required tree mitigation.

In the following figures and table, each existing tree within the Yesler Terrace Planned Action Site is assigned to one of the following tiers:

Tier 1: Tier 1 trees are allowed to be removed and replaced at a 10:1 replacement ratio. Tier 1 trees are defined as exceptional or valuable trees in good health, and in locations where preservation can clearly be achieved within the planned street vacation/rededication and redevelopment plan. Trees in this category shall be preserved through protection in place or relocation (where specifically approved for relocation) removed with the SDCI Director's approval. If a tree in this category is lost, removed, or damaged during, or before, or after development due to accidental damage, disease, the siting of development identified in the Planned Action, or other causes, it the Tier 1 tree shall be replaced within the Yesler Terrace Planned Action Site (Exhibit A to the Yesler Planned Action Ordinance), or off-site outside the Planned Action Site in a location identified by SHA and approved by the SDCI Director by 10 replacement trees. Each replacement tree shall be of a size and species determined by SDCI/DPD to have a canopy cover potential of at least equal to the tree that was lost. Tree removal mitigation, including replacement trees or any payment in-lieu of tree replacement, shall be done pursuant to rules promulgated by the SDCI Director.

Tier 2: ~~Trees~~ Tier 2 trees are authorized for removal. Trees in this category either are not viable in the long term due to disease, topping, or other health problems, or are in locations where disturbances during construction will make preservation infeasible. This includes exceptional trees in locations where anticipated grading or construction preclude tree retention. Each removed tree shall be replaced by one replacement tree. Each replacement tree shall be of a size and species determined by DPD/SDCI to have a canopy cover potential at least equal to the tree that was removed. Replacement trees shall be located within the Yesler Terrace Planned Action Site, or off-site outside the Planned Action Site in a location identified by SHA and approved by the SDCI Director. Tree removal mitigation, including replacement trees or payment in-lieu of tree replacement shall be done pursuant to rules promulgated by the SDCI Director, except that if a planting and maintenance plan is approved by WSDOT, the applicant may elect to plant replacement trees on WSDOT property between the Planned Action Site and Interstate 5. During the course of redevelopment, Tier 2 trees may be preserved if site conditions allow and the applicant so chooses.

UPDATED—Yesler Planned Action EXH C
October 21, 2019
Att B - Updated Exhibit C to Ord. 123962
V6a

Replacement trees provided pursuant to this plan may include plantings on lots or in abutting rights-of-way, if approved by the Director of Transportation. If a planting and maintenance plan is approved by WSDOT, the applicant may elect to plant replacement trees on WSDOT property between the Planned Action Site and Interstate 5. All tree plantings shall conform to provisions in ~~SDCIPDP~~ Director's Rule 30-15 or subsequent rule~~10-201-1~~, including but not limited to soil amendments and tree spacing. For trees that will be preserved, protection techniques shall be identified in Master Use Permit, demolition, and building permit applications.

At a minimum, project proposals for lots that include or are adjacent to Tier 1 trees shall:

- Use fences and signage to protect trees and their critical root zones (CRZs, as defined in City of Seattle 201 1 Standard Plan #133) during construction, consistent with ~~SDCIPDP~~ Director's Rule 10-201-130-2015 or subsequent rule.
- Where possible, in accordance with the Yesler Terrace Master Planned Community Design Guidelines or subsequent guidelines, the applicant shall design buildings, underground structures, sidewalks, roads, and other hardscape elements to avoid disturbance of trees and their CRZs.
- Install new trees and other landscape features in a manner that does not negatively affect the health of preserved trees, consistent with ~~DPD-SDCI~~ Director's Rule 10-201-130-2015 or subsequent rule.
- Comply with any other specific arboricultural techniques that ~~SDCIPDP~~ or SDOT deems necessary for preservation given specific site conditions. :

The figures and table show trees in the portion of the Yesler Terrace Redevelopment Area east of Boren Avenue, which is outside the Planned Action Site. The information in this Tree Protection Plan will be taken into account by SDCIPDP in reviewing permit applications in the area east of Boren. However, the Planned Action Ordinance and its Exhibit C Tree Protection Plan do not apply as requirements to permit applications or to development outside of the Planned Action Site.

| 290 | 2 | Black locust | Robinia pseudoacacia |
| 291 | 1 | Saw ara falsecypress | Chamaecyparis pisifera 'Boulevard' |
| 292 | 2 | Mountain pine | Pinus mugo ssp. uncinata |
| 293 | 2 | Chinese photinia | Photinia serrulata |
| 294 | 1 | Port Orford Cedar | Chamaecyparis law soniana |
| 295 | 1 | Port Orford Cedar | Chamaecyparis law soniana |
| 296 | 1 | Port Orford Cedar | Chamaecyparis law soniana |
| 297 | 2 | Port Orford Cedar | Chamaecyparis law soniana |
| 298 | 2 | Saw ara falsecypress | Chamaecyparis pisifera 'Plumosa Aurea' |
| 299 | 2 | Arborvitae | Thuja occidentalis 'Pyramidalis' |
| 300 | 2 | Arborvitae | Thuja occidentalis 'Pyramidalis' |
| 301 | 2 | Arborvitae | Thuja occidentalis 'Pyramidalis' |
| 302 | 2 | Arborvitae | Thuja occidentalis 'Pyramidalis' |
| 303 | 2 | Mazzard cherry | Prunus avium |
| 304 | 2 | English holly | Ilex aquifolium |
| 305 | 2 | Saw ara falsecypress | Chamaecyparis pisifera |
| 306 | 2 | Scots pine | Pinus sylvestris |
| 307 | 2 | Mazzard cherry | Prunus avium |
| 308 | 2 | Douglas-fir | Pseudotsuga menzeisii |
| 309 | 2 | Norw ay spruce | Picea abies |
| 310 | 2 | Norw ay maple | Acer platanoides |
| 311 | 2 | Fruit Cherry | Prunus sp. |
| 312 | 2 | Norw ay maple | Acer platanoides |
| 313 | 2 | Western red cedar | Thuja plicata |
| 314 | 2 | Sycamore maple | Acer pseudoplatanus |
| 315 | 2 | Saw ara falsecypress | Chamaecyparis pisifera |
| 316 | 2 | Sycamore maple | Acer pseudoplatanus |
| 317 | 2 | Scots pine | Pinus sylvestris |
| 318 | 2 | Norw ay spruce | Picea abies |
| 320 | 1 | Norw ay maple | Acer platanoides |
| 321 | 1 | Purple-leaf sycamore maple | Acer pseudoplatanus 'Atropurpureum' |
| 322 | 2 | Silver maple | Acer saccharinum |
| 323 | 2 | Silver maple | Acer saccharinum |
| 324 | 2 | Western red cedar | Thuja plicata |
| 325 | 2 | Fruit Cherry | Prunus sp. |
| 326 | 2 | Norw ay maple | Acer platanoides |
| 327 | 2 | Honey locust | Gleditsia triacanthos |
| 330 | 2 | Flow ering plum | Prunus sp. |
| 331 | 2 | Purple-leaf plum | Prunus cerasifera 'Atropurpurea' |

| Tree Tag # | Tier # | Botanical Name | Common Name |
|------------|--------|----------------------|------------------------|
| 332 | 2 | European white birch | Betula pendula |
| 333 | 1 | Scots pine | Pinus sylvestris |
| 334 | 2 | English holly | Ilex aquifolium |
| 335 | 2 | Scots pine | Pinus sylvestris |
| 339 | 2 | American elm | Ulmus americana |
| 340 | 2 | Green ash | Fraxinus pennsylvanica |
| 341 | 1 | Red oak | Quercus rubra |
| 342 | 2 | Flowering cherry | Prunus serrulata |
