

OTHELLO-RAINIER BEACH HEALTHY STREET

PERMANENT INSTALLATION IS COMPLETE!

We recently installed permanent signage with a concrete block base and newly painted curb space around it at each intersection along the **Othello-Rainier Beach Healthy Street**. At intersections where neighbors requested planters, we installed the permanent signage with a planter sign base.

As part of this permanent Othello and Rainier Beach Healthy Street, we will also install additional safety enhancements at three locations, and local artist Damon Brown will create a mural installation! To explore the Healthy Street plans, use the QR code to visit the project website.

Later this summer, we are planning to install 12 creative street art designs developed by Dunlap Elementary and South Shore PK-8 students as part of the **Bike to Books Program**! See the map on other side for more details!

A **permanent Healthy Street** means that the street will continue to be open for people walking, rolling, biking, and playing, and closed to pass-through traffic.

The **Othello-Rainier Beach Healthy Street** is connected to a larger network of Neighborhoods Greenways.

PLAY ON YOUR HEALTHY STREET

You can turn your Healthy Street into a Play Street without applying for a permit!

Play Streets are one-block, full street closures that can be used to host neighborhood events—like block parties, or as a place for kids to play!

Scan the QR code or visit seattle.gov/transportation/HealthyStreets to learn more and sign up to receive a “Play on Your Healthy Street Kit” to help you get started.
