How to select dates in the past easily on a phone or tablet

iPhone

Android

### iPhone Instructions

When you tap the date a calendar will pop up.

**First select the year:**

Touch the year in the top left

A year selector will appear where you can scroll to the correct year

**Next select the month:**

A list of months will appear, touch the correct month

The calendar will appear showing the selected year.

**Touch the correct day.**

### Android: Samsung, Google Chrome, Etc.

When you tap the date a calendar will pop up.

**First select the year:**

Touch the year in the top left

A year selector will appear where you can scroll to the correct year

**Next select the month:**

A list of months will appear, touch the correct month

The calendar will appear showing the selected year.

**Touch the correct day.**
